

## Business Plan Pro

Business Plan Pro is the best selling, most recommended business planning software available. Whether your business is large or small, established or start-up, this software has everything you need to produce a professional and customizable business plan that gets results. With over 500 sample plans, plus instructions and examples at every step, you never need to worry about writer's block. More plans online at <http://www.bplans.com/>. Business Plan Pro easily exports to Microsoft Word, Excel, PowerPoint, and Adobe PDF and includes a built-in Plan Review to ensure bullet-proof financials. Two expert business books are also included to help build your financial success.

You can buy your own copy at amazon.com or use the LivePlan software online at [http://www.paloalto.com/business\\_plan\\_software](http://www.paloalto.com/business_plan_software).
