

## **BIO – Merideth Kaye Clark**

Merideth Kaye Clark—“a masterful performer” with “powerhouse pipes”—performs Joni Mitchell’s iconic BLUE album from beginning to end. With Merideth playing guitar and dulcimer, and accompanied by Mont Chris Hubbard on piano, guitar, and some vocals, this performance will transport you to the first time you heard the album giving you the unique opportunity to experience it live.

“This note for note rendering would be remarkable in and of itself but even more noteworthy was the manner in which Merideth captured and owned the emotional depth of the work making for a wholly satisfying, enlightening, and entertaining evening.” — Gian Paul Morelli, Columbia Theatre
