EVERYBODY WINS...ARE YOU COMMITTED TO ASSIST?

PROVIDING FOR THE FUTURE

When Central Mountain High School was built in 1999, the only outdoor athletic facilities built were tennis courts and the only outdoor physical education space completed was very limited in area. Almost all outdoor athletic practices (except tennis) and competitions must occur "off-campus". The dream of building a state of the art football stadium and field house has been achieved. Now it's time to complete the dream by developing and building baseball and softball fields for our Central Mountain athletes.

COMPLETING THE DREAM

With the completion of the Don Mahinak stadium more money must be raised for the development and completion of the Sports and Physical Education Complex at Central Mountain High School. This will include the Varsity and Junior Varsity baseball fields as well as Varsity and Junior Varsity softball fields. Our vision of four fields will allow for a complete on-campus athletic complex.

WHY?

- To provide quality safe areas for physical education
- To provide fields for practices and competition for outdoor sports and activities
- To eliminate continuous year-round busing to

CREATING THE OPPORTUNITY

Above all else, this project creates the opportunity for Central Mountain High School, Keystone Central Schools and Southern Clinton County to take full advantage of top notch facilities by:

- Providing safe environments for physical education classes
- Expanding physical

WHAT?

- Four modern state of the art baseball and softball fields, complete with press boxes and score boards. A proposed "Wilderness Walk" to allow the community access to enjoy the natural surrounding of the complex.
- Large practice and physical education fields
- On-campus facilities for baseball and softball events
- Stadium seating and lighting for multi-use exhibitions and activities
- A field house with appropriate locker rooms, training rooms and public restrooms

Our goal of completion of these final projects is to have Varsity baseball and softball fields complete for 2012 play! The campaign to "complete the dream" needs your support of merely \$250,000. This is an attainable goal. With the generous contributions of our community we will be able to see...

The completion of the dream!

education offerings with the use of more outdoor facilities

- Completing the construction of Central Mountain High School
- Enhancing the school districts offerings and facilities as an enticement for economic growth
- Creating a "town square" for outdoor activities conducted by the community
- Accommodating the recreational and athletic endeavors of our youth, students, and adults...something the entire community will use and view with pride
- Committing to the continued development of our areas greatest asset...our children

LAYING THE FOUNDATION

While the physical education and athletic complex at Central Mountain High School will be designed to eventually host all the activities intended; admittedly, all the funds to create all the facilities are not yet available. The following portions of the entire project are outlined that will create a top-notch facility for the entire community to use.
