

Special Requests

We often receive special requests from parents for their child to participate on the same team with a particular friend, or to be on a certain coach's team, or something similar. All teams will have 1 head coach and 1 assistant coach. For all leagues, the head coach's child and the assistant coach's child are automatically placed on the same team. Beyond these placements, our policy for requests depends on the player's league.

T-ball - all requests will be honored if possible.

Coach Pitch and Kid Pitch - players are placed on teams by the director of the league. The director will first honor all requests, but then will check to see if any teams appear to be over-talented or under-talented (given the limited information available), and will make necessary adjustments in an attempt to maintain competitive balance among teams.

Willie Mays league and upward - players are placed onto teams by drafting. Most special requests can not be honored.

Part of the joy of youth baseball is being exposed to new experiences and making new friends. If your special request can not be honored, please remember that your child will most likely still have an excellent experience in our league.
