

## Sponsor Application Form

Thank you for taking the time to review our sponsor application. The Abilene Fast Pitch Softball Association (AFSA) wants to make necessary improvements to the sports complex while keeping the sport of softball affordable in our community. The mission of AFSA is to provide opportunities for personal growth and development of our youth female athletes. We reinforce positive influences, self-confidence, self-esteem and the ability to excel on and off the field. Through participation, AFSA is dedicated to educate and motivate each member while encouraging teamwork, sportsmanship and fun through the spirit of softball.

We are seeking community partners to help. Your contribution is used directly to renovate fields 1 and 2, install windscreens for dugouts and outfield fences, backstop padding, protective netting, warm-up areas, and replacing player equipment. Over the past 6 months, we have worked to acquire competitive bids. AFSA is seeking donations to reach our \$30,000 goal. As a contributor you will be part of providing a safe and updated complex that will serve girls from Abilene and the surrounding communities.
