

## I. Scorekeeping (In-Game Statistics)

Each team's captains are responsible to scorekeep (or delegate teammates to do so as long as you see that they understand exactly what they are doing) EIGHT games during the season.

We will sign up for score-keeping via a GOOGLE DOC which will be made available approximately 3 days before the even in the captains' wire. Please only side

When scorekeeping, your main duties are as follows:

- 1) Be assertive and see that the games start ON TIME!
- 2) Fill out the scoresheet accurately and completely (including your name! \*not just your team name\*)
- 3) Accurately record thrower, receiver and the game time (you can round to the nearest minute) for each score.
- 4) Directly tell EACH team when soft cap and hard cap have taken place.
- 5) Record absences for each team CAREFULLY.

**\*\*It will not count as a game score-kept for your team unless all of these things take place.\*\***

When someone is score-keeping for your game your duties are as follows:

- 1) Make sure that the game starts on time so the score-keeper doesn't have to - teams warmed up, flip done, ready to head to the line!
- 2) REPORT each score to the score-keeper. After a point, shout to the sidelines "32 to 88" until they give you the okay.
- 3) Remember that they are doing you a favor!! Let's not hear even one instance of "Same number as he's always been..." or "He's 72. I just told you that!" this whole season.
- 4) Ensure that your absences are correctly recorded on the score sheet before the game starts. It will count against the captains as well if they are not.
