RE: BRILLIANT HOMES

Dear Mr. Colley:

Per your request, American Homestar issued a statement regarding Oliver Technologies, (copy attached) indicating that their system was an approved alternative to the installation, blocking, and tie-down as detailed in the American Homestar Installation Instructions. This would also apply to homes produced by Brilliant Homes after June 1997.

American Homestar Corporation purchased Brilliant Homes in June 1997 and changed the name to American Homestar of Alabama, Inc. shortly after the purchase date. The three plants in Alabama operated under that name until they were closed.

The three plants produced homes under the names "Brilliant" "Carriage" and "Silhouette".

Very Truly Yours,

A handwritten signature in black ink, appearing to read "Jackie Holland". The signature is fluid and cursive, with a large loop at the end.

Jackie Holland  
Vice President

**Re: Alternate Installation/Foundation System on American Homestar and Oak Creek Homes, LP Products**

**Dear Mr. Colley:**

This is provided to advise you that the Oliver Technologies – All Steel Foundation Systems Model numbers 1100 F"V", 1100 IC"V", 1100 II"V", and 1100 IIC"V" is an approved alternative to the installation, blocking, and tie-down as detailed in the American Homestar and Oak Creek Homes, LP Installation Instructions. These systems are deemed acceptable for use on new and used homes produced from American Homestar Corporation and Oak Creek Homes, LP for homes placed in Wind Zone I, II, and III regions.

We will incorporate the use of acceptable alternate systems when we revise and reprint our installation instruction manuals.

**Very Truly Yours,**

**Re: Alternate Installation/Foundation System on American Homestar Products**

**Dear Mr. Colley:**

This is provided to advise that the Oliver Technologies – All Steel Foundation System Model 1100-IT “V” (lateral only bracing systems) and Model 1100-I “V” (lateral and longitudinal bracing systems) is an approved alternate to the installation; Piers, blocking, and tie-down as detailed in the American Homestar Installation Instructions. These systems are deemed acceptable for use on new and used homes produced from American Homestar Corporation.

We will incorporate the use of acceptable alternate systems when we revise and reprint our installation instruction manuals.

**Very Truly Yours,**
