

Approval Letter

6/5/2007

Mr. Jared Rose
Oliver Technologies, Inc.
PO Box 9
Hohenwald, TN 38462

Subject: Use of Oliver Technologies Foundation Systems

In response to your request, Hart Housing has approved the use of Oliver Technologies, Inc foundation systems as an alternative to the standard installation; piers, footings, and tie-down as detailed in the Hart Housings installation instructions. These systems are deemed acceptable for use on new and used homes produced by Hart Housing a div. of Forest River Housing. Approved are the following products:

- Oliver “1100” Series ASF systems
- Oliver Adjustable Outriggers
- Oliver ABS Pier/Foundation Pads
- Oliver CB1 and CB2 Cap Boards
- Oliver Anchors and Anchoring Components

These products may be used to properly secure any Hart Housing in ZONE 1 as long as the following requirements are met:

1. The foundation system is installed specifically per the manufacturer’s instructions.
2. A registered engineer or architect must approve the manufacturer’s instructions.

Lee Holton
