San Marcos, CA 92060

RE: Adjustable Outriggers

Dear Mr. Larson :

The Arkansas Manufactured Home Commission does not test or approve products used by the manufactured home industry. If a manufacturer's design package approves the use of a system then it is accepted by the Arkansas Manufactured Home Commission for use on that manufacturers homes.

Sincerely,

ARKANSAS MANUFACTURED HOME COMMISSION

Mr. Lon Larson  
Manufactured Housing Foundation Systems, Inc.  
562 Glenheather Drive  
San Marcos CA 92069

Dear Mr. Larson :

This letter is to confirm the Arkansas Manufactured Home Commission has completed the approval process to allow the use of "ABS Lifetime Pads" as pier foundation footings for manufactured housing installed in Arkansas.

Thank you for your help and patience in working with the Commission through the approval process.

Sincerely,

ARKANSAS MANUFACTURED HOME COMMISSION
