Re: Request for Approval of Adjustable Outrigger and
Adjustable Mating Line Floor Brace.

Dear Mr. Larson:

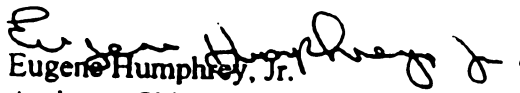

This is in response to your letter and documentation dated November 5, 1999 concerning your request for the State of Mississippi approval of the above referenced foundational equipment.

The Manufactured Housing Division of the State Fire Marshal's Office has reviewed with interest the engineered drawings, testing data, installation instructions and recommended ordinance available to the adjustable outrigger and the adjustable mating line floor brace.

We have concluded that if approved by the manufactured home's manufacturer and when installed in accordance with the Manufactured Housing Foundation System's instructions, it is considered as approved in the State of Mississippi.

If you should have any questions concerning this matter, please do not hesitate to contact this office.

Sincerely,

Eugene Humphrey, Jr.
Assistant Chief Deputy Fire Marshal
Manufactured Housing Division
