Mr. Lon Larson
Mobile Home Safety Products
1990 North McCulloch Boulevard
#D-110
Lake Havasu City, Arizona 86405

Dear Mr. Larson:

Based upon the information about the ABS pads you manufacture for the placement of manufactured housing, the State of Utah finds no reason why the pads could not be used. The State of Utah does not list materials for use in the construction industry. The test data indicate that the pads would support more the average manufactured home would require. The users of the pad should remember that the size required would be determined by the load bearing capacity of the ground upon which the home is installed, this could require multiple pads to be used.

If you have any questions please feel free to call me at (801)530-6727.

Sincerely,

Ed Short
MIRV Coordinator
