**NOTICE OF SCOPING HEARINGS  
AMENDMENT 22 TO THE NORTHEAST SMALL-MESH  
MULTISPECIES FISHERY**

The New England Fishery Management Council is conducting five public hearings to solicit comments on developing Amendment 22 to the Northeast Small-Mesh Multispecies Fishery. The purpose of this action is to implement measures that would prevent unrestrained increases in fishing effort by new entrants to the fishery. The need for the amendment is to reduce the potential for a rapid escalation of the small-mesh multispecies fishery, possibly causing overfishing and having a negative effect on red hake and whiting markets, both outcomes having negative effects on fishery participants.

Through limited access criteria and measures that would apply to qualifying and non-qualifying vessels, the amendment is intended to help ensure that catches of the small-mesh multispecies and other non-target species will be at or below specifications, reducing the potential for causing accountability measures to be triggered and resulting closure of the directed fishery. Three types of measures listed below could be considered. The scoping document includes a list of questions to consider when commenting for each of the following: 1) Limited access qualification criteria that would determine whether vessels may target small-mesh multispecies; 2) Limited access permit characteristics and conditions; and 3) Permit categories and associated measures.

Addressing this purpose and need requires the development of an amendment to the FMP to fully consider and analyze an appropriate range of management alternatives. The Council is seeking comments and input from the public on this specific issue. The hearings are being held by the Council in accordance with the National Environmental Policy Act.

<b><u>Date and Time</u></b>	<b><u>Location</u></b>
<b>Portland, ME Tuesday, December 1, 2015 5:30 p.m. (or immediately following the Council Meeting)</b>	Holiday Inn by the Bay 88 Spring Street Portland, ME 04101 Telephone: (207) 775-2311
