**Project Manual Changes**

Item #1-3 What are the 3rd party minimum limits for the turf warranty?

**Response:** Period of 8 years

Item #2-1 Multiple inquiries have been received regarding materials specified in the Contract Documents and equivalent materials. Contractors wish to know whether materials are equivalent to those specified in the Contract Documents.

**Response:** With regards to whether a material will be deemed equivalent, the following process will be used. Materials will be compared to the specifications of the materials identified in the Contract Documents for the following field materials: the turf, the infill, and the pad. The specifications for the material identified in the Contract Documents are included in Table A2-1, A2-2, A2-3.
As identified in Section 325200 2.1.C, any submission by the Bidder proposing an equivalent must show that the materials are equivalent in performance. Providing product data sheets do not meet this requirement. The bidder shall provide a side by side comparison to the City of New Bedford showing that any proposed alternate is at least equivalent to those specifications identified in Table A2-1, A2-2 and/or A2-3. If a proposed alternate does not have data available in the same criteria as the baseline material, it is the responsibility of the bidder to find it or explain why the value is not significant to the performance of the material.

Item #2-2 Revision to Synthetic Field Markings

**Response:** Amendment to Section 325200A – Synthetic Field Markings is amended to include the markings included in the attached Drawing A2-1 – Addendum No. 2 Revised Field Markings, which include the Keith Middle School Logo. This marking shall be included as part of the Contract Documents.
