Gomes Elementary
286 South Second Street

North Side
1st Floor Cafeteria
2nd Floor Cafeteria

South Side
1st Floor Cafeteria
2nd Floor Cafeteria

QUESTIONS AND ANSWERS

Please confirm the electrical requirements for the standard am 15 - 2 units. After doing the walk through this morning, I believe the initial spec as sent out is incorrect. I believe the correct voltage for the 6 a.m. 15 units is 208 3-phase 60 volt.

The School Department has changed the voltage on the machines that were listed (6) at 208 and (4) at 480 (6 units total)

Likewise, I believe the voltage for the am15vl units, should be 408, 3-phase, 60 (4 units total)

Please see answer above

Please advise if water softening units, Hobart item WS - 40, are required with each unit. (Recommended)

The School Department does not need water softening units.

Please advise if delivery Personnel will be removing and disposing of all the existing dishwashers, and booster heaters.

The School Department will require delivery personnel to remove and dispose of the units being replaced.

Please confirm that the delivery service required is only delivery set in place made ready for connections by others.

Yes, the delivery service required is only delivery set in place made ready for connections by others.

Please advise if the DWT- Drain Water tempering kits are installed by VENDOR or by School employees
The Drain Water Tempering Kits need to be installed by the Vendor.

Please advise, if delivery staff doing the set in place must have any Security check requirements.

Yes, any vendor or its employees entering the school will need to have a CORI check.

Please advise if the delivery staff must be direct employees of the vendor who is providing the units.

Delivery Staff must be direct employees of the vendor as each individual must submit to a CORI check to enter any of the City of New Bedford Schools.

End of Addendum
