BUY AMERICAN PROVISION

In the event of termination pursuant to this section, the City of New Bedford may withhold any payments to the successful Bidder for the purpose of set off until such time as the exact amount of damages due to the City of New Bedford form the successful Bidder is determined. In addition to and notwithstanding the above, the successful Bidder covenants and agrees that in the event of termination of any contract resulting from this Invitation for Bid, the successful Bidder shall pay to the City of New Bedford as damages: (a) such sum as, at the time of termination, the City of New Bedford reasonably determines that it shall require to compensate a subsequent contractor to complete the delivery of service, and (b) the sum, reasonably determined by the City of New Bedford, which will compensate the City of New Bedford for all of the direct and indirect costs resulting from the delay of services upon the successful Bidder’s default. Copies of finished and unfinished documents, data, studies and reports generated as a necessary part of performing the subject contract shall be delivered to the City of New Bedford upon reasonable request and shall be retained by the successful Bidder for future use. The City of New Bedford shall promptly pay the successful Bidder for all services performed and for all costs and un-cancelable commitments reasonably incurred in performance of the subject contract to the effective date of termination, provided the successful Bidder is not in default of the terms of the subject contract and submits to the City of New Bedford properly completed invoices with supporting documentation covering services no later than 45 days after the effective date of termination, and that the successful Bidder makes every reasonable effort to minimize or reduce costs incurred.

GENERAL CONDITIONS
OF THE CONTRACT
FOR NON-TECHNICAL SERVICES

The City of New Bedford, herein referred to as the City, does hereby establish the following General Conditions, applicable to this Invitation for Bids and any subsequent purchase order, work order, shipping order or contract resulting there from.

1.0 SCOPE OF SERVICES

1.1 The Contractor agrees to furnish all labor, materials equipment and insurance necessary to perform and fully complete, in every respect, within the time frame herein specified, all work (hereinafter referred as the Services) described in the bid specifications.

1.2 The Contractor shall not make any changes in the scope of Services without the prior written consent of the City. The Contractor shall make reasonable revisions or corrections, within the scope of Services, to any work performed until submitted in a form acceptable to the City.

1.3 The City reserves the right to alter, add to or reduce the Services by delivering to the Contractor written notice specifying the nature and extent of such alteration, addition or reduction. Such notice shall be effective upon the date of actual receipt by the Contractor or upon the date given in such notice. No addition to the Services shall be made unless the City and the Contractor have agreed to such increase in writing.

2.0 EXECUTION

2.1 All work required hereunder shall be performed as promptly as possible, and in any event within the time herein set forth, and such work shall be subject to approval and acceptance by the City, but such approval and acceptance shall not relieve the Contractor from the obligation to correct any incomplete, inaccurate or defective work, all of which shall be promptly remedied by the Contractor on demand, without cost to the City. The Contractor shall obtain all the required licenses and permits for the work herein described.

2.2 The Contractor shall conform to all determinations and directions of the city concerning the Contractor’s delivery of services in the event of inclement weather, equipment failure, picket lines on City property, or labor strikes by the contractor’s employees.

3.0 COMPENSATION

3.1 The City shall pay the Contractor for services rendered under this contract in accordance with the amount(s) set forth in the Contractor’s General Bid Form and pursuant to the provisions contained in the bid specifications.

3.2 Notwithstanding anything to the contrary contained in the Contract, the City may withhold any payment to the Contractor hereunder if and for so long as the Contractor fails to perform any of its obligations hereunder or otherwise is in default under this Contract including, without limitation, any failure to perform Services in full accordance with the amount sufficient in the reasonable opinion of the City to cure any such default or failure of performance by the Contractor.

3.3 In no event shall the City be required to pay any amounts for work deemed by it to be unacceptable, or which are otherwise disputed. In the event the City disputes any such amounts invoiced, it shall pay all amounts not in dispute and notify the Contractor in writing of the amounts disputed and the reasons therefore.

3.4 No payment made shall constitute or be construed as final acceptance or approval of that part of the Services to which payment relates, or relieve the Contractor of any of its obligations outlined in this Contract. Further, the City shall not be deemed, by virtue of making payments to the Contractor hereunder, to have released the Contractor from any claim or liability, or to have waived any action arising out of the breach of this Contract by the Contractor.

4.0 REPORTS AND DRAWINGS

4.1 When the Contractor has been paid for the Services performed by him or her, all reports, drawings, and other material furnished to the City shall become the City’s property and may used by the City (or such parties as the City may designate) thereafter in...
such manner and for such proposes as the City (or such parties as the City may designate) may deem advisable, without further employment of or additional compensation to the Contractor. The Contractor shall not release or disclose any report, drawing, or other material furnished to the Contractor by the City in connection with the performance of the Contractor’s Services.

5.0 CONTRACTOR’S ACCOUNTING RECORDS

5.1 The Contractor shall keep records pertaining to Services performed (including complete and detailed time records) on the basis of recognized bookkeeping practices, generally accepted accounting principles, and in accordance with such reasonable requirements to facilitate audit as the City may provide. All records shall be available to the City or its authorized representatives for review and audit during normal business hours.

6.0 ASSIGNMENT/SUBCONTRACTING

6.1 The Contractor agrees that he will not sell, assign or transfer this contract part therefrom or interest therein without the prior written consent of the City.

7.0 REMEDY FOR DEFAULT

7.1 If the Contractor, in the sole judgment of the City, shall violate or fail to properly comply with or perform in any material respect any condition, provision, or warranty hereof, the City shall have the right by prior written notice to the Contractor to have the services called for hereby otherwise performed, and/or to terminate this contract without prejudice to any other rights or remedies of the City under this contract. The Contractor shall pay any excess in the City’s cost to so procure the services and any related goods, supplies, materials or equipment. In addition, and without limiting any other remedies available to the City, the Contractor shall be liable for all losses, costs and expenses incurred by the City which result from the Contractor’s noncompliance.

8.0 SUSPENSION OR TERMINATION

8.1 The City shall have the right, upon seven (7) days written notice to the Contractor so stating, to terminate, suspend, or postpone this contract in whole or in part for any reason deemed by the City to be in the Public interest. Any such termination, suspension, or postponement shall not give rise to any cause of action for damages against the City. In the event that the City postpones or suspends the Services, the Contractor’s time for performance of the Services shall be extended for a period equal to the period of such postponement or suspension. In the event of termination, suspension or postponement, the City shall pay: (a) for services and any related goods, supplies, materials and equipment furnished up to the time of termination, suspension, or postponement at the contract price upon delivery; (b) for work in process in the amount of the Contractor’s cost, determined in accordance with ordinary accepted accounting practices, up to the time of termination, suspension, or postponement; and (c) for raw materials purchased by the Contractor as of the date of termination, suspension, or postponement and which are non-cancelable at the Contractor’s actual cost plus reasonable handling charges, but only to the extent that such raw materials were purchased in reliance upon this contract and are useful solely with respect to this contract.

8.2 Upon receipt of a notice of termination, suspension, or postponement the Contractor shall immediately cease all work hereunder and cancel all orders placed with respect to this contract. The Contractor’s failure to so cancel shall relieve the City of the obligations of paragraph 10.1 above.

8.3 The City may postpone, suspend or terminate the services immediately, by notice, hand delivery or certified mail, if the Contractor violates any of the provisions of this Contract, or fails to perform or observe any of the terms, covenants or conditions of this Contract, or abandons in whole or in part its Services, or becomes unable to perform its Services.

8.4 In the event of termination of this Contract, the Contractor shall promptly deliver to the City all documents, work papers, calculations, computer programs, data, drawings, plans and other tangible work product, or materials pertaining to the Services performed under this Contract to the time of termination.

9.0 NOTICE

9.1 Any action, notice or request required to be taken, given, or made by City or the Contractor hereunder may be taken, given or made only by those persons identified for that purpose on the Contract Form. All notices required to be given hereunder shall be
deemed properly given if personally delivered, or if mailed by registered or certified mail, postage prepaid addressed to the address and officer identified on the Contract Form.

10.1 The Contractor shall take all reasonable precautions to prevent damage to property, visible and concealed, and shall restore to substantially the same condition existing prior to the Contractor’s entry any disturbance or damage to property caused by the Contractor or any person acting under its control.

REQUIRED CONTRACT PROVISIONS
In
APPENDIX II of 2CFR 200
Required Contract Provisions in Appendix II of 2 CFR 200

Formal Procurement Section, Question 8: Did the Invitation for Bid or Request for Proposal include the following clauses, as applicable? [Appendix II to 2 CFR 200/7 CFR 3019.48]

a) All contracts in excess of $10,000 must address termination for cause and for convenience by the non-Federal entity including the manner by which it will be effected and the basis for settlement.

c) Contract Work Hours and Safety Standards Act (40 U.S.C. 3701-3708). Where applicable, all contracts awarded by the non-Federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 U.S.C. 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

d) Davis-Bacon Act, as amended (40 U.S.C. 3141-3148). When required by Federal program legislation, all prime construction contracts in excess of $2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 CFR Part 5, “Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction”). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency. The contracts must also include a provision for compliance with the Copeland “Anti-Kickback” Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, “Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States”). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency.
e) Rights to Inventions Made Under a Contract or Agreement. If the Federal award meets the definition of “funding agreement” under 37 CFR §401.2 (a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that “funding agreement,” the recipient or subrecipient must comply with the requirements of 37 CFR Part 401, “Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements,” and any implementing regulations issued by the awarding agency.

f) Debarment and Suspension (Executive Orders 12549 and 12689)—A contract award (see 2 CFR 180.220) must not be made to parties listed on the governmentwide exclusions in the System for Award Management (SAM), in accordance with the OMB guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR part 1986 Comp., p. 189) and 12689 (3 CFR part 1989 Comp., p. 235), “Debarment and Suspension.” SAM Exclusions contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549.

Additional Requirements not included in Draft Procurement Tool

1. Contracts for more than the simplified acquisition threshold currently set at $150,000, which is the inflation adjusted amount determined by the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) as authorized by 41 U.S.C. 1908, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate.

2. BUY AMERICAN
The Food and Nutrition Service (FNS) has continued to receive a number of inquiries relating to the details and enforcement of the Buy American provision in 7 CFR 210.21(d). This memorandum replaces SP 24-2016, Compliance with and Enforcement of the Buy American Provision in the National School Lunch Program, dated February 03, 2016. This guidance provides several updates, including suggested contract language to be utilized in solicitations, and serves to reinforce the importance of the Buy American provision to our economy and its positive effects on small and local businesses.

Buy American provision requirements. Section 104(d) of the William F. Goodling Child Nutrition Reauthorization Act of 1998 (Public Law 105-336) added a provision, Section 12(n) to the National School Lunch Act (NSLA) (42 USC 1760(n)), requiring school food authorities (SFAs) to purchase, to the maximum extent practicable, domestic commodities or products. This Buy American provision supports the mission of the Child Nutrition Programs, which is to serve children nutritious meals and support American agriculture.

The Buy American provision applies to SFAs located in the 48 contiguous United States and is one of the procurement standards these SFAs must comply with when purchasing commercial food products served in the school meals programs. Although Alaska, Hawaii, and the U.S. territories are exempt from the Buy American provision, SFAs in Hawaii are required to purchase food products produced in Hawaii in sufficient quantities, as determined by the SFA, to meet school meal program needs per 7 CFR 210.21(d)(3). Likewise, SFAs in Puerto Rico are required to purchase food products produced in Puerto Rico in sufficient quantities, under 42 USC 1760(n)(4).

Section 12(n) of the NSLA defines “domestic commodity or product” as an agricultural commodity that is produced in the U.S. and a food product that is processed in the U.S. substantially using agricultural commodities produced in the U.S. Report language accompanying the legislation noted that “substantially means over 51% from American products.” Therefore, over 51% of the final processed product (by weight or volume) must consist of agricultural commodities that were grown domestically. Thus, for foods that are unprocessed, agricultural commodities must be domestic, and for foods that are processed, they
Regional and State Directors

must be processed domestically using domestic agricultural food components that are comprised of over 51% domestically grown items, by weight or volume as determined by the SFA.

For products procured by SFAs for use in the Child Nutrition Programs using nonprofit food service account funds, the product’s food component is considered the agricultural commodity. FNS defines food component as one of the food groups which comprises reimbursable meals. The food components are: meats/meat alternates, grains, vegetables, fruits, and fluid milk. Please refer to 7 CFR 210.2 for full definitions. Any product processed by a winning vendor must contain over 51% of the product’s food component, by weight or volume, from U.S. origin. This definition of domestic product serves both the needs of schools and American agriculture. Products from Guam, American Samoa, Virgin Islands, Puerto Rico, and the Northern Mariana Islands are considered domestic products under this provision as these products are from the territories of the U.S.

**Implementing the Buy American provision.** SFAs are reminded that for all procurement transactions for food when funds are used from the nonprofit food service account, whether directly by an SFA or on its behalf, procurement transactions must comply with the Buy American provision. Implementation of the Buy American provision should be done by: including Buy American in documented procurement procedures, State agency prototypes documents, and all procurement solicitations and contracts; including domestic requirements in bid specifications; contract monitoring; and verifying cost and availability of domestic and non-domestic foods using data in the USDA Agricultural Marketing Service’s (AMS) weekly market report at https://marketnews.usda.gov/mnp/fv-report-config-step1?type=termPrice.

**The Buy American provision supports local and small businesses.** Using food products from local sources supports local farmers and provides healthy choices for children in the school meal programs while supporting the local economy. Requiring compliance with the Buy American provision also supports SFAs working with local, or small, minority, and women-owned businesses as required by Federal regulations (see 2 CFR 200.321). FNS also encourages purchasing food products from local and regional sources when expanding farm to school efforts.

**USDA Foods comply with Buy American requirements.** FNS encourages SFAs to maximize their use of USDA Foods, which comply with Buy American requirements. USDA Foods are domestic, and purchasing from 100% domestic origin sources is a longstanding USDA policy based on Section 32 of the Agriculture Act of 1935 (P.L. 74-320 as amended; 7 U.S. Code 612c). However, processed end products that contain USDA Foods need to meet the 51% domestic requirement, by weight or volume.
**Limited exceptions to the Buy American provision.** There are limited exceptions to the Buy American provision which allow for the purchase of foods not meeting the “domestic” standard as described above (i.e., “non-domestic”) in circumstances when use of domestic foods is truly not practicable. These exceptions, as determined by the SFA, are:

- The product is not produced or manufactured in the U.S. in sufficient and reasonably available quantities of a satisfactory quality; or
- Competitive bids reveal the costs of a U.S. product are significantly higher than the non-domestic product.

It should be noted that FNS has not defined a dollar amount or percentage triggering an exception requiring consideration of alternatives. Before utilizing an exception, alternatives to purchasing non-domestic food products should be considered. For example, SFAs should ask:

- Are there other domestic sources for this product?
- Is there a domestic product that could be easily substituted, if the non-domestic product is less expensive (e.g. substitute domestic pears for non-domestic apples)?
- Am I soliciting bids for this product at the best time of year? If I contracted earlier or later in the season, would prices and/or availability change?
- Am I using third-party verification, such as through USDA AMS, to determine the cost and availability of domestic and nondomestic foods?

If an SFA is using one of the above exceptions, there is no requirement to request a waiver from the State agency or FNS in order to purchase a non-domestic product. SFAs must, however, keep documentation justifying their use of exception(s). FNS has provided sample language of such, to be used as a reference in solicitation and contract documents; these are found in Question 5 in the Questions and Answers document below. Monitoring of contractors by the SFA and oversight by the State agency are critical functions in enforcing the Buy American provision, including review of exceptions, as further outlined below.

**Compliance with, and monitoring of, the Buy American provision by SFAs.** To ensure compliance with the Buy American provision the SFA must ensure solicitation and contract language includes the requirement for domestic agricultural commodities and products. The SFA must also include the Buy American requirement in its documented procurement procedures and retain records documenting any exceptions. SFAs should ask the supplier, i.e., manufacturer or distributor, for specific information about the percentage of U.S. content in any processed end product. In order for SFAs to be able to document the domestic content, they should include in their procurement process a requirement for certifying the domestic percentage of the agricultural food component of commodities and products.

Further, solicitation and contract language must be monitored by the SFA to determine contractor compliance as required by 2 CFR 200.318(b), in order to ensure that contractors perform in accordance with the terms, conditions, and specifications of their contracts or purchase orders. Monitoring is also accomplished by reviewing products and delivery invoices.
Regional and State Directors

or receipts to ensure the domestic food that was solicited and awarded is the food that is received. SFAs also need to conduct a periodic review of storage facilities, freezers, refrigerators, dry storage, and warehouses to ensure the products received are the ones solicited, and awarded, and comply with the Buy American provision.

**Monitoring of the Buy American provision by State agencies.** State agencies conducting procurement reviews in conjunction with, or as a separate review from, the administrative review process must ensure SFA compliance with the Buy American provision. During a procurement review, State agencies should: (1) determine if SFAs are purchasing domestic commodities as defined in 7 CFR 210.21(d); (2) check that solicitations and contracts contain the Buy American certification language recommended in Questions 6 and 7 below; and (3) review a sample of supplier invoices or receipts to determine whether the solicited-for domestic foods were provided by the awarded contractor. If the SFA is non-compliant with the Buy American provision, the State agency must issue a finding and require corrective action which may include:

- Requiring contract amendments to include language to supply domestic foods, or a new solicitation if the contract amendment is determined, by the contracting parties or State agency, to be a material change;
- Attending a procurement training to increase compliance with procurement standards, including the Buy American provision; and
- Fiscal action for repeat or egregious findings, on a case-by-case basis with approval by the appropriate FNS Regional Office.

During an on-site administrative review, State agencies should look at the labels on a variety of food products in SFA storage facilities and if the State agency identifies non-domestic foods, the State agency must request documentation justifying the limited exception(s) outlined above. If such is not provided, the State agency must issue a finding and require corrective action, which may include:

- Requiring review of food deliveries for contractor compliance;
- Monitoring to ensure the correct domestic food components contracted for are delivered;
- Prior to accepting foods, ensuring that an alternative domestic food component, or an exception to purchase non-domestic foods, has been approved for delivery; and
- Fiscal action for repeat or egregious findings, on a case-by-case basis with approval by the appropriate FNS Regional Office.

Both the administrative review and procurement review teams should work together and communicate findings in order to provide comprehensive monitoring of the Buy American requirement.
State agencies are reminded to distribute this memorandum to SFAs immediately. SFAs should direct any questions concerning this guidance to their State agency. State agencies with questions should contact the appropriate FNS Regional Office.

Questions and Answers for the Buy American Provision

1) How would an SFA determine that an item is a “domestic commodity or product”?

Answer: To determine if a food item meets the Buy American provision, the SFA would need to ensure that the solicited-for domestic foods were included in the vendor response, and provided by the awarded contractor in the foods delivered to the SFA. Section 12(n) of the NSLA defines “domestic commodity or product” as an agricultural commodity produced in the U.S. and a food product processed in the U.S. substantially using agricultural commodities that are produced in the U.S. Reports accompanying the legislation noted that “substantially means over 51% from American products.”

For products procured by SFAs for use in the Child Nutrition Programs, the food component of the product is the agricultural commodity. FNS defines food component as one of the food groups which comprise reimbursable meals. The food components are: meats/meat alternates, grains, vegetables, fruits, and fluid milk. Please refer to 7 CFR 210.2 and 210.10 for full definitions and use of the terms, respectively. Any product processed by a responsive vendor must contain over 51% of the food component, by weight or volume, from U.S. origin.

When considering juice for example, in order for the product to be considered “domestic” in accordance with the Buy American provision, the juice must contain over 51% of the juice or juice concentrate, by volume, from fruits or vegetables grown in the U.S. FNS does not consider water – whether tap or bottled – to be a domestically grown agricultural commodity for purposes of this provision. Likewise, packaging and labor are not agricultural commodities. For products procured by SFAs to be served in the Child Nutrition Programs, the fruit/vegetable component of the product, by volume, is the agricultural commodity. For fruit/vegetable juices, in order to be considered responsive, the juice provided by a vendor must contain over 51% of the fruit/vegetable component of the juice, by volume, from U.S. origin.

2) Does the Buy American provision apply to entities that purchase on behalf of an SFA, such as a purchasing cooperative or a food service management company?

Answer: Yes. Any entity that purchases food or food products on behalf of the SFA must follow the same Buy American provisions and exceptions that the SFA is required to follow.

3) Are all agricultural commodity or food products purchased using the nonprofit food service account subject to the Buy American provision?

Answer: Yes. SFAs must ensure that all agricultural commodity or food products procured using funds from the nonprofit school food service account comply with the Buy American provision. Pursuant to Child Nutrition Program regulations, all Federal funds, all money received from children as payment for program meals, all proceeds from the sale of competitive foods, and all other income generated by the school food service must accrue to the nonprofit food service account. As a consequence, the entire nonprofit school food service account becomes subject to Federal procurement standards. Therefore, all agricultural commodity or food product purchases made from the nonprofit school food service account are subject to the
Buy American provision, subject to the limited exceptions noted in the memorandum above.

4) What can an SFA do to comply with the requirements of the Buy American provision?

**Answer:** To ensure compliance with the Buy American provision the SFA must ensure solicitations and contracts include the requirement for domestic agricultural commodities and products, include this requirement in its documented procurement procedures, and retain records documenting any exceptions. Examples of specifications that SFAs may use in solicitations and contracts to comply with the Buy American provision include:

- Utilizing the Buy American definitions in 7 CFR 210.21(d) in all food product specifications, invitations for bids (IFBs), and requests for proposals (RFPs) for food products, contracts, purchase orders, and other procurement documents issued;
- Require a certification of domestic origin for products which do not have country of origin labels; and
- Including the following language: “The District/State agency/Territory participates in the National School Lunch Program and School Breakfast Program and is required to use the nonprofit food service funds, to the maximum extent practicable, to buy domestic commodities or products for Program meals. A ‘domestic commodity or product’ is defined as one that is either produced in the U.S. or is processed in the U.S. substantially using agricultural commodities that are produced in the U.S. as provided in 7 CFR 210.21(d).”

Additionally, SFAs are required by 2 CFR 200.318(b) to monitor contractor performance to ensure compliance with all contractual requirements. This includes compliance with the Buy American provision. SFAs can also require their suppliers to provide certification of domestic origin on food products delivered and on invoices submitted as discussed in more detail in Questions 6 and 7, below.

For example, Program operators may require vendors to provide a certification of domestic origin for all food products listed in all procurement documentation, from a bid or proposal to receipts and invoices. Program operators may deem a bid or response unresponsive and ineligible for contract award for noncompliance with the terms and conditions of contract award, if such certifications are solicited for, but not included. Further, the program operator may establish penalties, including contract termination, if vendors fail to comply with the Buy American provision and no documentation of any exceptions exists.

5) How can SFAs comply with the requirement to retain records, which should include documentation of exceptions in adhering to the Buy American provision?

**Answer:** Below is sample language that SFAs should use in solicitations and contracts to comply with the requirement to retain records documenting any exceptions to the Buy American provision:

I. Exceptions to the Buy American provision are very limited; however, an alternative or exception may be approved upon request. To be considered for an alternative or exception, the request must be submitted in writing to a designated official, a minimum of ___ day(s) in advance of delivery. The request must include the:
(1) Alternative substitute(s) that are domestic and meet the required specifications:
   (a) Price of the domestic food alternative substitute(s); and
   (b) Availability of the domestic alternative substitute(s) in relation to the quantity
       ordered.
(2) Reason for exception: limited/lack of availability or price (include price):
   (a) Price of the domestic food product; and
   (b) Price of the non-domestic product that meets the required specification of the
domestic product.

SFAs may document exceptions by maintaining records of communications between them and
their food supplier; this may include emails, documentation of telephone communications, etc.
The documentation must be maintained for review by the State agency during procurement
reviews of local agency procurement practices.

One resource SFAs and State agencies may use in order to document exceptions is the market
news reports available from AMS. AMS provides free, unbiased price and sales information on
Using this website, SFAs and State agencies can find third-party verification of cost and
availability of domestic and nondomestic foods. Further, SFAs may use the information to
communicate alternatives with food suppliers and document purchase decisions.

6) What is sample language contractors can use to document their compliance with the
   Buy American provision?

Answer: Below is sample language contractors may use to comply with the Buy American
provision; however, language should be tailored to the needs of the contracting parties.

Sample Language:
"We certify that ___(insert product name)___ was processed in the U.S. and contains over 51% of
its agricultural food component, by weight or volume, from the U.S.," with space for the
supplier to fill in the name of the product and its specific percentage of the domestic agricultural
food component contained therein.

7) How should an SFA document the domestic commodity food components for a
   processed end product?

Answer: SFAs should ask the supplier, i.e., manufacturer or distributor, for specific
information about the percentage of U.S. content in the processed end product. In order for
SFAs to be able to document the domestic content, they should include in their bidding
process a requirement for certification such as: "We require that suppliers certify the food
product was processed in the U.S. and certify the percentage of U.S. content, by weight or
volume, in the food component of processed food products supplied to us."

SFAs may also include the following statement in the bidding process: "We require bidders
to certify that ___(insert product name)___ was processed in the U.S. and contains over
___(insert % of weight or volume) of its agricultural food component from the U.S.," with
space for the supplier to fill in the name of the product and its percentage of the domestic agricultural food component (by weight or volume) contained therein.

State agencies should also include such language in any prototype solicitation documents and contracts provided to the SFAs.

8) Can a product made from a U.S. agricultural product but manufactured in another country be purchased from the nonprofit school food service account absent a limited exception?

Answer: No. Section 12(n) of the National School Lunch Act defines “domestic commodity or product” as one that is produced and processed in the U.S. substantially using agricultural commodities that are produced in the U.S.” This means that the product must be processed entirely in the U.S. and must substantially use domestic agricultural commodities. A large number of items received by schools state on the label that they are “packed” in the U.S. Non-domestic foods packed in the U.S. or non-domestic foods in packaging produced in the U.S. do not meet the Buy American requirements.

9) Can FNS or a State agency provide a list of foods that are not available domestically and therefore not subject to the Buy American provision?

Answer: No. Neither FNS nor a State agency may make the determination that a domestic commodity or product is not available. Although the Federal Acquisition Regulations (FAR) contain such a list, this applies to procurement by the Federal government only. Each SFA should determine on an individual basis, whether domestic alternatives exist first, and if not, whether an exception is warranted. Exceptions are warranted only when (1) the food product is not produced or manufactured in the U.S. in sufficient and reasonably available quantities of a satisfactory quality; or (2) competitive bids reveal the costs of a U.S. product are significantly higher than the non-domestic product. Again, there is not a specific amount or percentage that is considered “significantly higher” and it is the SFA’s responsibility to determine the threshold. Records and documentation must be retained justifying any exception as outlined above. SFAs can maintain documentation of exceptions for domestic foods that are prohibitively costly or not available in sufficient quantities and present this during reviews by the State agency.
