1961-62	80	0.51
1960-61	50	0.32

*Preliminary

166 Homicides in 2012

Lowest number of
homicides since 1970

This chart reflects the number of homicides in the total jurisdiction of the Los Angeles County Sheriff's Department, for 53 years starting with the year 1960.

The homicide ratio was calculated taking into account the total population living in areas policed by LASD. See the footnote below for more details.

Note: Total homicides since 1960 in communities policed by LASD:

Over 100 pages of details showing reported crime statistics for the patrol areas of the unincorporated communities and 42 contract cities policed by the Los Angeles County Sheriff's Department (including 2011), can be found at **www.lasd.org**. Visit the "Crime prevention and Information" page.

The following rules apply to this statistical data.

- Department-wide homicides from 1960-2013 include all unincorporated areas, contract cities, transit, and custody facilities.
- If a person is injured in one year and dies in a later year the homicide is counted in the year of death. Variations in population coverage and reporting practices may cause differences in reporting from year to year.
- Crime rate per 10,000 population; based on reported crimes and population estimates for each year.

Source:

Statistical Digest/Statistical Summary/Year in Review/Crime & Arrest Statistics books for 1960-2013.

Actual Crimes are Reported Crimes minus unfounded.

Contract cities and unincorporated areas patrolled by LASD have changed throughout the years.

Prepared by: Statistical Unit of the Crime Analysis program, Technical Services Division, 01/2014.

Population source for crime rates per 10,000 population: 2001- 2009 population projections from the Chief Administrative Officer's (CAO) Office of Urban Research and California Department of Finance. 2012 and 2013 population source from the 2010 United States Census Population count.
