## CLOSURE OF CITY PARKS AS TEMPORARY EVACUATION SITES

To Whom It May Concern:

Effective **August 8, 2018 at 11 pm**, the Clearlake City Parks will no longer be open as temporary evacuation sites. At that time, we will resume enforcement of the Clearlake Municipal Code (CMC) relative to parks, including, but not limited to, prohibitions against camping and hours of operation.

The following site is open as an evacuation shelter if you are unable to return home:

1. Twin Pine Casino, 22223 California Highway 29, Middletown, CA.

We ask for your voluntary cooperation as we transition the parks back to their primary use as recreation sites for residents and visitors to our community. This includes cleaning up any trash and debris, removing any temporary structures erected, as well as any other personal property.

The impact of the wildfires has caused a significant impact on our community as well as our public safety resources. We are hopeful the temporary opening of the parks as evacuation sites provided some relief for you in this difficult time.

Best Regards,

ANDREW WHITE  
Chief of Police
