

## Replace The Design

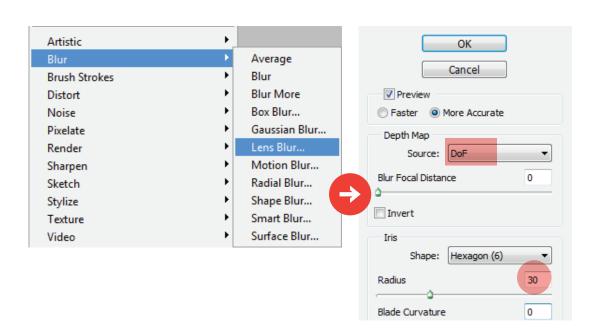

Simply double-click smart object layer thumbnail (marked with blue color), it will open new editing tab in your document. Paste your design inside that tab, save then close the tab. Enjoy the result!

## Applying Depth of Field (DoF) Effect

For maximal presentation, it is recommended to apply Depth of Field effect to your logo. After you finished replace the design, simply right-click on any layer the chose "Flatten Image". This step will merge every layer into a single layer. Then go to Filter > Blur > Lens Blur. When the Lens Blur window open, set the Source section into DoF, then set the Radius you need for your DoF effect (usually between 20 to 30). Click Ok to close the Lens Blur window and enjoy the result
