

## Connector Package

A universal connector package is shipped with every panel. Additional packages can be ordered by contacting National Office.

Top connector plate for steel top cap

Bottom connector plate

Half (teardrop) end filler

Full end filler

Pins

## Surface Materials

- Universal Connector
- Black paint only

## Connections

Connect panels of the same height in straight, L-, T-, Y-, or X- configurations.

Each panel comes with two connector plates, fillers, and mounting screws.

Top connector plate attaches to tops of panels.

Bottom connector plate attached to bottoms of panels.

Straight configuration

L-configuration

T-configuration

Y-configuration can be obtained when two universal connectors are used – one panel can pivot from where it is attached. A Y-configuration with three 120° angles can be locked in place by using three connectors instead of two.

X-configuration

Tear-drop fillers continue the black reveal line below top cap and create a uniform appearance at panel junctions.

End fillers continue the black reveal line below the top cap and create a uniform appearance at the end of a panel run.
