Randy and Judy are in Honduras under the covering of The Pentecostal Assemblies of Canada. Born and raised in St. John's Newfoundland, they were transferred by their employer to Ontario in 1982. There they raised their children and were actively involved in many organizations, church programs and Leadership roles. In 2004 Randy and Judy spent three months on a fact-finding mission to Manos Extendidas (ME) in Tegucigalpa Honduras. It was here that the children stole their hearts and the needs pierced their spirits. They knew they had to do something. When they returned with a team from Northern Ontario PAOC churches, the burden became more intense. After much prayer and consideration they accepted the invitation from ME to work alongside of them for the first 4 years in full time missions work which began in January 2006.

They are now launching an independent PAOC missions work to help provide hope and a future for these children with the possibility of a good solid opportunity for Biblical bilingual education and training. They will continue working and assisting with programs at the ME feeding centers, helping with training and impacting lives and affecting change for Christ (Jeremiah 29:11).

On their own, they know they can do nothing, With God's help, they know all things are possible.
