Guy and Jane have already worked in Dakar, Senegal for a number of years. They have been involved with Dakar Academy, which is a mission school in Senegal's capital city. During their ministry there they have become involved with a number of ministries to this West African nation. One of the major avenues of ministry has been to the desperately needy children of that city.

The Pentecostal Assemblies of Canada is beginning to look at the possibility of a much more intentional relationship with the national church of this nation. Guy and Jane will play an important role in setting our agenda for this relationship. Pray for them and for Senegal itself, since it is mostly a Muslim country with very little Gospel witness.
