THE RIDEOUT'S
Ann and David

Dave and Ann Rideout are appointed to South-East Asia to coordinate and implement a ministry in Community Health Evangelism (CHE). They will initially be resident in Chiang Mai, Thailand. Community Health Evangelism (CHE) seamlessly integrates evangelism and discipleship with disease prevention and community based development. The ministry is wholistic, seeking to obey everything that Jesus commanded (Luke 4:16-19). It addresses the whole need of individuals and communities. Through CHE, communities are empowered and begin to change; health improves, infant mortality decreases, agriculture becomes more productive, jobs are created, water systems, roads, schools and clinics are built, and churches are established or strengthened. All of this is achieved through the initiative of the local community using their own resources.
