Adult Level I
Trauma Center

Hosted at

ArtsQuest Center at SteelStacks
101 Founders Way
Bethlehem, PA 18015

Please bring a bag of non-perishable food to support the Second Harvest Food Bank

OBJECTIVES

The 14th Annual Contemporary Issues in Trauma Conference is a multidisciplinary conference designed to provide trauma education to all levels of health care providers. This conference will address the latest topics in trauma care and is designed to examine current literature and best practices in the field of trauma.

This multidisciplinary conference is intended for physicians, physician assistants, nurse practitioners, nurses, nurse anesthetists, pre-hospital providers, allied health professionals and professional students.

CONFERENCE OBJECTIVES:

- Recognize the utility of ultrasound for resuscitation in hypotensive patients
- Develop understanding for indications for commonly ordered CT scans in injured children
- Discuss indications for initiation of ECMO therapy in the trauma patient
- Explain trauma alert activation, triage criteria and patient disposition
- Determine the patient's hemodynamic stability as the main determinant for need for emergent OR
- Discuss the main causes and types of intra-thoracic and tracheobronchial injuries
- Identify management guidelines of the inpatient geriatric trauma patient- medication management, delirium precautions/treatment
- Identify current trends in trauma care
