

# YOU CHOOSE IT. WE'LL CLEAN IT.

## How MilliCare Complies with Carpet Manufacturer's Maintenance Recommendations

facts:

### Milliken Recommendations

#### Recommended Service Providers and Method of Cleaning:

Milliken's Carpet Maintenance recommendation is to use the MilliCare Dry Carpet Cleaning system as provided by MilliCare Textile and Carpet Care, a Franchise Network of highly trained carpet maintenance professionals located throughout the world.

Milliken DOES NOT recommend any cleaning system consisting of detergent or solvent based products. Studies have revealed that excessive resoiling occurs from residues left on carpet fibers when using these systems. Milliken DOES NOT recommend the use of chlorine based bleaches or peroxide based general area cleaning products as they can remove color from the carpet. In addition to excessive resoiling problems we have experienced texture damage to fibers, detwisting of yarns as well as matting and crushing of carpet pile from surface cleaning procedures such as spin pad cleaning.

To set up an introductory meeting and schedule a demonstration for your facility call 1.888.88M.CARE or check our Web Site for a local provider at [www.millicare.com](http://www.millicare.com).
