

Comparison of Leading Probiotics

For 25 years, Florajen has united high potency with affordability.

Florajen is formulated with proven safe and effective strains. Its higher cell count delivers a level of potency with real and significant health benefits. Unlike the competitors, Florajen is refrigerated for freshness and quality, and it is affordable for all your patients. *All Florajen probiotics are dairy-free, gluten-free, non-GMO, and are manufactured in GMP U.S. certified facilities.*

*No beneficial bacteria—only *Saccharomyces*, a yeast
