Subject: RE: Media request

Our goal is and always has been to operate safe facilities, to avoid harm to people and damage to the environment and to comply with the company policies and the laws and government regulations that govern our operations.

We sometimes fall short. When we do, we work with OSHA and other regulators to agree and implement corrective action. Workplace injuries, environmental incidents and fines are not and have never been an acceptable "cost" of doing business at BP.

Thanks,

- Daren
