

HELP ME

Mission Statement

Founded 1987, the Center for AIDS Prevention (CAP) marks 20 years in the fight against HIV/AIDS. We are proud of our accomplishments in coordinating local HIV/AIDS prevention, care, and advocacy projects and recognize that more needs to be done. We strive for the day when our work is no longer needed, but sadly the HIV/AIDS crisis is growing while stigma and complacency persist. In the period ahead we will partner with communities most affected by the epidemic to expand and improve HIV/AIDS prevention and care services, and advocate for sound HIV/AIDS policy and law.

Who We Are

The CENTER FOR AIDS PREVENTION is a public 501 (c) 3 non-profit health and social service agency that works to confront and alleviate the effects of HIV/AIDS disease in America. The CENTER FOR AIDS PREVENTION provides aggressive HIV/AIDS education and prevention programs; comprehensive services for people affected by HIV/AIDS disease; clinical research on HIV/AIDS treatments and vaccines; and HIV/AIDS advocacy.

ABOUT AIDS/HIV

- Do you believe that HIV causes AIDS
Does HIV and AIDS mean the same
I would like to know whether AIDS infected couple can deliver a baby without AIDS?
What causes AIDS?
What is AIDS?
How AIDS is a harmful disease?
Does a person run the risk of having HIV/AIDS if he has sex only once (first time in his life)?
Can a person die of AIDS and not have HIV?
What are the symptoms of HIV in females?
What are the symptoms of HIV AIDS?
What is HIV?
What do you know about acute HIV syndrome?
How is the HIV virus passed on to other people?
How many people have AIDS?
Where did HIV, the virus that causes AIDS originate?
How do you fight AIDS?
What is the difference between HIV and AIDS?
I wanted to know more regarding the spread of HIV. Can it spread by drinking water containing say a few blood drops of an HIV infected person?

TESTIMONIALS

A very good friend of mine is working with the Center for AIDS Prevention, who suggested that I inquire/ take a 2 week supply of the AIDS fighting formula that the Center for AIDS Prevention is supporting for HIV/AIDS disease research. I had been sustained by strong toxic medications to a point. I have always believed herbs and vitamins are paramount in prevention or turnaround of disease.

A Greatful Doctor [Read Full Testimoial]

FACTS & FIGURES

*Children who have lost their mother or both parents to AIDS

AIDS has created 13.2 million orphans, most of them in sub-Saharan Africa. By 2010, UNAIDS estimates there may be 42 million orphans- the number of children in the United States living east of the Mississippi.
