SNIFFEX... A Company So Hot That Everyone From Homeland Defense To The Saudis To The United Nations Wants Its Breakthrough Anti-Terror Product... THAT MEANS SNFX IS SET TO POP FOR FANTASTIC RETURNS

Yes, you have plenty of time to jump into what could certainly be this fall's hottest stock... there should be so much profit in this launch-pad anti-terror firm that **should you decide to pass on the first 75% to 108% you should still be on pace to cash in massive profits... profits that could likely run past 389%.**

In fact, passing on the initial huge gains – just monitoring the stock – is probably the safest way for a conservative investor to play SNFX. Let the stock price double or more in the next week or so, and you'll know it's for real.

THAT WAY YOU'LL SAFELY WITNESS THE INITIAL RUN UP OF WHAT SOME PEOPLE ON WALL STREET CONSIDER THE BEST STOCK STORY OF 2005... BAR NONE!

And, as you and thousands of our loyal readers already know – we know great companies. Better still, we identify them for you first... long before the herd piles on.

It's why when you followed our previous picks you cashed in, within days, more than 405% on NLST and 207% DPRK. Those are killer stories, but not even close to the amazing deals being put together by a company with the odd name of SNIFFEX.

Hey! Don't sneeze at its name. In a week or so, when you look in your portfolio, you'll never forget it.

But, today, you're going to flip out over SNIFFEX'S breakthrough product and the intense global demand for it. **You see, SNFX has plugged perhaps the biggest hole in the global fight against terrorism... ACCURATE and FAST BOMB DETECTION.**

SNFX makes a pocket-sized, hand held explosives detection device. It operates through its ability to detect the presence of Nitro Oxide ions (the free radicals in explosives).

SNFX's unique technology allows its devices to penetrate and locate even small amounts of explosives... get this... even through concrete and metal barriers. And, even better, when you fighting Osama and his suicide killers, the SNFX

SNIFFEX INC.

Symbol: SNFX

Current share price: \$3.30

Industry: Explosive detection devices

Mission: Fighting global terror, return handsome profits to investors

Wall Street Expectations: 108% early and as much as 398% in the next 12 months

device can locate and find explosives from 10-100 feet even when the explosive is hidden in buildings or in vehicles.

The terrorists would have gotten through the doors in Bali last week, had the clubs' security been armed with SNIFFEX.

How good is the SNFX explosive detector? **Last Friday (Oct. 14) the Saudi Arabian embassy in Beirut Lebanon bought the explosive detection device to use.** That sale came just three days after the United Nations and UNICEF bought SNFX bomb detectors for use in the Middle East. This list of SNIFFEX users goes on and on. The demand for it is hitting outrageous levels.

So you're da.. whoops... darn right to get charged up and think SNFX has developed...

- The Perfect Product
- At The Perfect Time

Best of all for you, SNFX is newly public, so it should really fatten your wallet (and, just before the holidays) as the price begins its spike as slow-moving investors catch on.

Even better, as you've seen, there are two ways to play SNFX. **You can jump on now and make all the money... profits that could exceed 389%.** Or, if you can afford it, you can miss the first 108% or so, and let SNFX prove itself to you.

Today, that makes SNIFFEX (SNFX) a SWEET INVESTMENT defined!
