Earth and Space,
Force, Motion
and Energy

MSC #2 Matter
and Energy

MSC#3
Organisms and
Environment

Summer & Fall 2013

PSI and SEMAA present
The Love of Learning Project

featuring

Iggy's Adventures in Spacetime

The summer blasts off with the thrilling adventures of Iggy the Space Monkey! In this interactive science camp, students help Iggy on his journey through space, utilizing skills in logic and reasoning, math, science, and art!

Students helping Iggy survive and thrive are participating at Putnam & Beall Elementaries, Guillen & Canyon Hills Middle Schools, and Boys and Girls Club this summer. PSI and SEMAA look forward to introducing this interdisciplinary curriculum to more Iggy-loving students throughout the school year!
