## Sterile Processing

Examine and Improve Your Sterile Processing Program

“Don’t be caught off guard  
by The Joint Commission!  
Use this tool before TJC  
comes, and you’ll be in a  
much better place.”

- *Donna Swenson*

*AAMI ST79 Committee Member and Benchmarking Expert,  
CEO of Sterile Processing Quality Services, Inc.*

“This tool gave me instant  
credibility with my VP. It’s  
the best tool out there.”

- *John Morkavich*

*Benchmarking Subscriber,  
Director of Sterile Processing at Kaleida Health*

What best practices can you learn from your peers?

---

Will you pass your next accreditation survey?

---

Can you make the case for hiring additional staff and buying new equipment?

---

Is your sterile processing department running as efficiently as possible?

---

# Benchmarking Solutions—Sterile Processing

is a digital platform designed to help your sterile processing department shine. Measure your budget, personnel, practices, and policies against similar departments at other facilities—and achieve better results for your team.

## Instantly Generate Reports

### Allocation of SPD and Non-SPD Employees

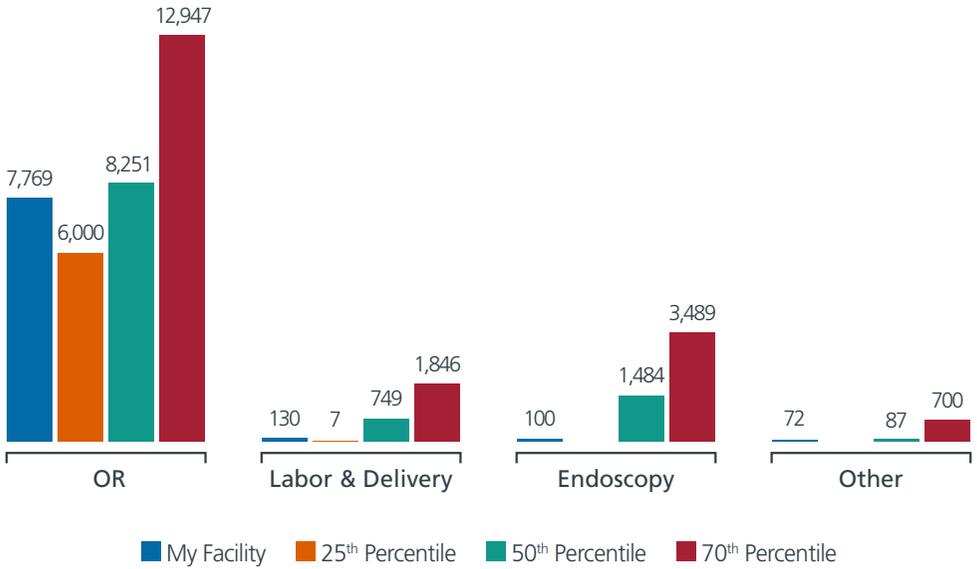

- Full-time SPD Staff
- Part-time SPD Staff
- Full-time Non-SPD Staff
- Part-time Non-SPD Staff

\* Sample report using demo data

## Developed by AAMI and IAHCSSM, this platform gives you the information you need to improve your sterile processing department:

- Immediately gain access to data on 130+ benchmarking metrics and measurements.
- Compare your facility to others and customize results by region, hospital type and/or size.
- Instantly create reports and charts in PDF or PowerPoint, so you can examine data and share findings with colleagues and supervisors.
- Connect with benchmarking and sterilization experts who can help answer your questions.
- Interact with other subscribers to share advice and ideas on sterilization practices.
- Enter your data in our secure platform year after year, and measure your improvement over time
- Your information is kept completely confidential.

## Allocation of Total Surgical Procedures by Department

\* Sample report using demo data

**You'll also receive an annual report with analysis of aggregated benchmarking data and emerging trends across the field of sterile processing.**

## Why use Benchmarking Solutions– Sterile Processing?

- **Improve** overall quality and patient outcomes.
- **Showcase** your value to the C-suite.
- **Bolster** employee satisfaction.
- **Assess** and strengthen your budget.
- **Compare** sterilization practices, volume, and types of work performed.
- **Examine** staffing levels and personnel qualifications.
- **Prepare** for accreditation surveys.
- **Stay on top** of the trends shaping healthcare and sterile processing.
