HEALTHCARE TECHNOLOGY MANAGEMENT (HTM)?

- We work in hospitals to make sure all medical equipment works when patients need it.
- We fix medical equipment when it breaks and help pick out new technology for the hospital.
- Without us, patients wouldn’t be as safe.
Healthcare Technology Management is great if you like:

- Math
- Science
- Technology
- Puzzles
- Fixing things
- Helping others

So, what do Healthcare Technology Management professionals do?

- We work with cool medical equipment in hospitals to help people get better.
- We help nurses and doctors solve problems.
- We have tons of fun! Every day is different, and we are always learning something new.
