

COMMUNICATION FROM THE NMEu EMERGENCY RESPONSE TEAM (ERT)

Subject: HFR Reactor Progresses to 17 March Restart

Brussels 8 March 2022

NRG informed Nuclear Medicine Europe on 7 March that it continues to expect a timely restart of the HFR reactor on 17 March.

NRG noted that a letter provided by NMEU, justifying the urgency of a diligent yet timely licensing review by the Dutch Competent Authority ANVS, was very helpful and the ANVS approval process is on schedule.

The commissioning of the cooling system repair was performed successfully, and was witnessed by ANVS. Commissioning is nearly complete, with final inspection of the remaining coolant lines planned for Wednesday 9 March. All other preparations for restart are on track.

HFR will provide its next update to NMEu on 14 March 2022.

Bernard Ponsard,
Chairman ERT

Ira Goldman,
Chairman NMEu SoS WG

For the reactors:

Bernard Ponsard, Chairman ERT, SCK CEN

For the Processors:

David Achilas IRE

Auke Attema, Curium

For the Generators:

Ira Goldman, LMI

Revital Melzer, GE, Healthcare

Nil Neda Bedro and Harun Seckin, Monrol

By invitation:

Ronald Schram, NRG

Jelmer Offerein, NRG

Piet Louw, NTP

Rapporteur

Jocelyne Baldasso

GE Healthcare
