CORRELATIVE IMAGING COUNCIL

Council Mission: The Correlative Imaging Council is a group within The Society of Nuclear Medicine and Molecular Imaging, Inc., hereafter referred to as the Society, dedicated to the interchange of scientific and medical ideas among Society members who have interest in correlative imaging and clinical practice. The overall mission of the Correlative Imaging Council is to:

(a) provide a forum for members with similar interests
(b) provide to the membership expertise in both correlative imaging and clinical practice
(c) foster research and education in both correlative imaging and clinical practice
(d) provide outreach to other professionals and organizations
(e) nurture new membership into the Society
(f) serve as a resource to SNMMI Leadership

Council Mission and SNMMI’s Strategic Plan: The work of the Correlative Imaging Council applies to the following goals and objectives in SNMMI’s Strategic Plan:

Goal B: SNMMI has advanced the development and approval of nuclear medicine and molecular imaging technologies.

Objective 1: Encourage and promote research in the field.
   a. Increase the number of facilitated collaborative research efforts among academic sites with industry.
   b. Reach out to experts in the field to involve them in work groups or coalitions that are producing new studies and papers.
   c. Support and foster collaboration between academia and industry; academia looks to industry to translate initial discoveries in patient care into new technology.

Objective 2: Increase the number of initiatives targeting the discovery and validation of diagnostic radiopharmaceuticals, radiotherapeutics and instrumentation.

Goal F: SNMMI has the organizational strength and sustainability to lead the field in a dynamic healthcare landscape.

Objective 1: Strengthen membership numbers.
   d. Ensure enthusiasm.
      iii. Create a sense of community and networking opportunities among our members.
