Camp Ronald McDonald
Eagle Lake
2555 49th Street
Sacramento, CA 95817
Camp PossAbility is a camp for young adults ages 18 to 35 with physical abilities who are cognitively high functioning (with a high school diploma or GED). Its mission is to provide young adults with physical disabilities a safe place to relax, spend time with friends, and not have to worry about adapting to the world around them. Camp PossAbility will run from August 2-7 2015 in Martinsville, Indiana. Scholarships are available for campers to help pay for costs upon request.

A camp that believes that children who experience chronic health problems or catastrophic illness, or who are physically or mentally disabled, need help and encouragement to cope with their lifelong challenges. Recognizing the sense of isolation and frustration these challenges can bring to the children and their families, Camp Victory’s founders ensured that the design and building of the various facilities would incorporate their special needs.

C.A.M.O. (Challenge Aspen Military Opportunities) provides recreational and cultural experiences for veterans with cognitive or physical disabilities.
CHAMP Camp is for children and adolescents, ages six and up, who have tracheostomies and those that require respiratory assistance, including the use of ventilators. Many campers also have unique physical challenges, including quadriplegia.
