Aging and Disability Resource Centers/ No Wrong Door
Call Eldercare Locator Toll-free 1-800-677-1116 to find the ADRC in your area.

The No Wrong Door (NWD) System initiative is a collaborative effort of the ACL, the Centers for Medicare & Medicaid Services (CMS), and the Veterans Health Administration (VHA). The NWD System initiative builds upon the Aging and Disability Resource Center (ADRC) program and CMS’ Balancing Incentive Program No Wrong Door requirements that support state efforts to streamline access to long-term services and support (LTSS) options for older adults and individuals with disabilities. NWD Systems simplify access to LTSS, and are a key component of LTSS systems reform.

The Aging and Disability Resource Center Program (ADRC) is a collaborative effort of the U.S. Administration for Community Living (including AoA as of April 2012) and the Centers for Medicare & Medicaid Services (CMS). ADRCs serve as single points of entry into the long-term supports and services system for older adults and people with disabilities. Sometimes referred to as a “one-stop shops” or "no wrong door" systems, ADRCs address many of the frustrations consumers and their families experience when trying to find needed information, services, and supports. Through integration or coordination of existing aging and disability service systems, ADRC programs raise visibility about the full range of options that are available, provide objective information, advice, counseling and assistance, empower people to make informed decisions about their long term supports, and help people more easily access public and private long term supports and services programs.. Click on your state to find state and local ADRCs.
The core functions of an ADRC are 1) information, referral and awareness, 2) options counseling, advice and assistance, 3) streamlined eligibility determination for public programs, 4) person-centered transitions, 5) quality assurance and continuous improvement. ADRCs perform these functions by integrating, coordinating, and strengthening different pieces of the existing long term supports and services systems, including Area Agencies on Aging, Centers for Independent Living, state and local Medicaid offices, and other community-based organizations.

The Teller Senior Coalition is a small nonprofit that assists senior citizens living in Teller County, Colorado. Unlike any other organization in Teller County, we offer free transportation and respite care to those aged sixty and over. Over the last 20 years we have also assisted seniors by providing shelf stable meals to those that are homebound, help with utility payments, and home safety repairs --- all these services are provided without a fee as most of our clients are low income. We request a donation but no one is ever denied any service.

Community-Based Fitness Programs

The Reeve Foundation has several Community Fitness and Wellness facilities that are part of its NeuroRecovery Network (NRN) program. These facilities are accepting individuals with walking difficulties related to any cause (not just SCI) and are hosting activity-based exercise programs designed specifically for individuals with physical disabilities. There is not one in this state but if you would like to learn more about the program, please go to www.ChristopherReeve.org/NRN.

Community Health Centers are non-profit organizations providing health care to those with insurance and without. All sites offer primary care and many offer specialty care as well. There is no residency requirement; individuals can receive services at any facility of their choosing, with over 1,200 health centers in 8,000 rural and urban communities across the nation. Sliding-scale fees based on family size, income, and insurance status ensure that anyone who uses a Community Health Center can receive quality care regulated by federal standards. Please call the state association listed above to find a Community Health Center in your local area.

Find your elected officials to contact them on legislation that is important to you. Each
member of Congress maintains at least one office in his or her home state or district.
Most have multiple offices throughout the state or district. These offices are designed for
direct contact with constituents (that's you!). This is your opportunity to advocate and
make your voice heard in Congress without traveling to Washington, DC. Congressional
offices are also a great resource for handling problems with federal agencies. You have a
constitutionally guaranteed right to petition your government, and home offices provide
you an opportunity to use that right.
