5. Which of the following comes closer to your view about the United States embargo of Cuba (ROTATE):

- The embargo has worked to isolate the Cuban government and weaken its power over Cuban residents. The embargo should continue to be enforced, and the Obama Administration's actions to weaken it by allowing travel and remittances to Cuba are a mistake.
- The embargo has failed to damage the Cuban government, and serves only to hurt economic conditions for Cuban residents. The Obama Administration's actions to weaken the embargo by allowing travel and remittances are a step in the right direction for the Cuban people.

## Education Reform

21. Which of the following statements comes closer to your view (ROTATE):

- a. Candidate A says the federal government needs to invest more money in our public school system to help Hispanic children. Students, particularly minorities and those in inner cities, are falling behind, and the problem will never improve until schools and teachers have the money and resources they need.
- b. Candidate B says that continually increasing spending by the federal government has not helped academic achievement among Hispanic students. The main problem with our schools is not a lack of money, and education can only be improved through reforms like more school choice, teacher training and accountability, and parental involvement.

Representative B says Florida should continue the merit pay system that rewards teachers for student achievement. The number of Hispanic students passing Advanced Placement exams has tripled in the state since merit pay started, and the program gives extra incentives to teachers in low-performing schools.

## Immigration Reform

24. Which of the following three types of legislation would you prefer on immigration reform:
- A bill that concentrates on border security but does not include a temporary-worker program or earned legalization for undocumented immigrants who are already here, because we have to secure the border first.
  - A bill that includes border security and a temporary-worker program, because we have to address the need for immigrant workers if we are ever going to get control of the border.
  - A bill that includes border security, a temporary-worker program, and earned legal status for undocumented immigrants who are already here, because any solution to the immigration problem must deal with all of the problems with our immigration system.
