41. Republican vice-presidential candidate Paul Ryan has proposed making significant reforms to Medicare. Under Ryan’s plan, Americans under 55 years of age would receive premium support from the government, which would allow them to receive traditional Medicare or could be used to pay for part or all of a private insurance plan. Meanwhile, Medicare would remain the same for Americans 55 and older. Which of the following comes closer to your opinion? (ROTATE)

a. Paul Ryan's Medicare plan would preserve and protect this program, saving us trillions of dollars over the long run and keeping Medicare from going bankrupt while giving seniors more choices and control over their own health care.

b. Paul Ryan's plan would end Medicare as we know it, leaving senior citizens at the mercy of greedy insurance companies and forcing them to pay for part of their own health insurance which could lead to cuts in life-saving medical treatment.
