Dünya kuruları insanlar toplu yaşamışlar: köyler, kasabalar ve şehirler kurmuşlardı. Her topluluğu gözeten, koruyan ve haddini aşır ve zulme kaçanları terbiye edenler bulunmuş ve ilk idare sistemleri oluşmuştur.

Millet ve toplulukları gözeten kimseler: Sultan ve Kral olarak, asalet sahipleriyle hükmetmişler. Ya adil veya zalim hükümdarlar olarak tarihe geçmişlerdir. Dünya kurulu bu böyleken baze kere de kuvvetine ve adamlarına güvenen soy-suz ve serseri kimseler halkın huzurunu bozmuş ve zulümları ile ortalığı fesda vermişlerdir.

Since the beginning of the world men have lived in communities, and established villages, towns and cities. In every community, people were found who would protect that community, defend it and teach good behaviour to those who exceeded their limits and indulged in injustice. That's how the first forms of government were established.

These defenders of the people and society, kings or sultans, always depended on people of noble origins in their reign and their governments, whether labeled as just or unjust, fill history books. This social arrangement, which is as old as this world, was at various times interrupted. Vagabonds and degenerates relying on their forces and manpower, spoilt people's order and tranquility and with their oppression spread corruption everywhere.

THE SULTANATE &
MAGNIFICENCE

Dünyaya huzur verecek NİZAM SALTANAT ve İHTİŞAM NİZAMIDIR. NİZAM-I ALEM ancak SALTANAT'LA KAİMDİR; yani, ayakta durur. SALTANATSIZ DÜNYA NİZAMI düşünülemez!

SALTANATSIZ DÜNYA NİZAMI var deyenler, Dünyanın bugünkü haline baksınlar ve görüşlerini değerlendirsinler!

Mawlana Sheikh Nazim

The system which will give the world peace and tranquility is THE MAJESTIC SULTANATE. The WORLD ORDER can stand UPRIGHT, on its feet only with SULTANATE. A WORLD ORDER without SULTANATE is unthinkable.

Those who claim that WORLD ORDER can exist without SULTANATE, should look at the condition of today's world and re-evaluate their point of view!

EVENTS *and* DECREES

Man's station rises through his knowledge.

The definition of man in philosophy, a Karagoz-and-Hajivat definition:

“Thinking is the factor that distinguishes man from animals, it is a human excellence.” Man, through thinking, finds himself and his way, detects mistakes and protects himself from evils. Thus, thinking for man, acts like the steering wheel of a car. A man who does not think is like a car with no control. At any moment, he can get into a trouble or have an accident.

Given all this, mankind is afraid to think. A man who is afraid of thinking can suffer a terrible calamity or punishment at any time.

This is one example (related by Turkish newspapers a year ago): Those brutalized animals who walked into a wedding and shot dead 45 innocent people; if they had thought about it, they would not have done it!

Here is a second example (also related by Turkish newspapers, a few months ago): If the su-

perior officer who gave his subordinate a primed bomb, ready to explode, had thought a little, those innocent soldiers would not have died.

These are the evils brought about by modern living. Modern life does not allow space for thinking or consideration. Following instructions or orders is everything.

In modern life absolute obedience to superiors is everything.

These people, however, have

A MODERN COUNTRY?

- Is this a modern country?
- Is using force on people and treating them like animals part of being modern?
- In Modern Life is there not insistence on force and conscription?
- In Modern Life is there not the crushing and suppression of women?
- In Modern Life are there not coarse, vulgar actions against women?
- In Modern Life are there not women used in the depraved service of men?

no place for care or respect in front of their Creator!

This is the mirror of modern life.

HAVADISLER *ve* HÜKÜMLER

İnsan ilmi mertebesiyle yükselir. siz arabaya benzer. Her an bir belaya ve kazaya uğrayabilir.

İnsanın felsefe ile tarifi (Karagöz-ve- Hacivatın tarifleri):“Düşünmek insanları hayvanlardan farkettilen faktördür- bir meziyettir.”

İnsan düşünerek kendini ve yolunu bulur, yanlışını yakalar ve beladan korunur. Düşünme insanda arabanın direksiyonu gibidir. Düşünmeyen insan dümen-

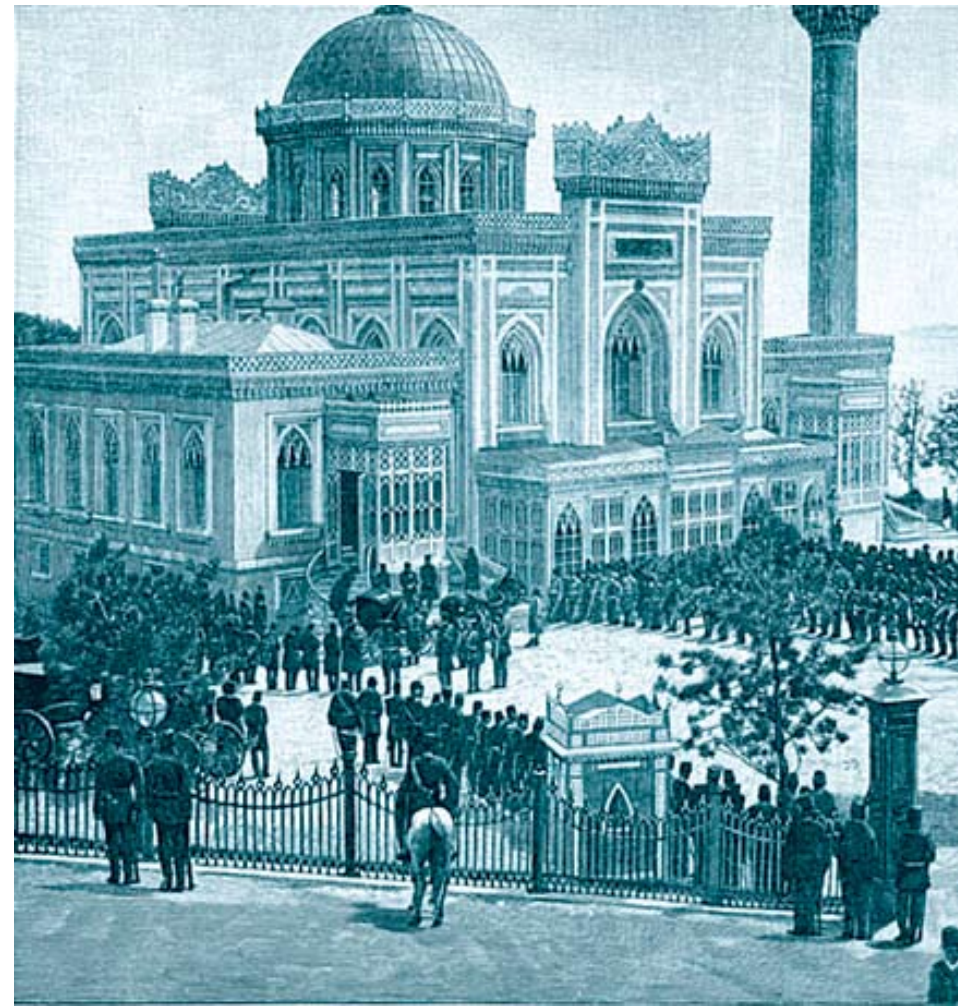

Bununla beraber insan düşünmekten korkar! Düşünmekten korkan insan ise her an dehşetli bir belaya veya cezaya uğrayabilir.

Buna bir misal: Bir düğünü basan ve kırkbeş masum insanı silahla öldüren, hayvanlaşmış kişiler, düşünseler bunu yapmayacaklardı.

Veya 2.misal: Askerinin eline pili çekilmiş, patlamaya hazır el bombası veren üst eğer biraz olsun düşünseydi o masum askerler ölmeyecekti.

Bunlar çağdaş yaşamın getirdikleri belalardır. Çünkü çağdaş hayatta düşünmek yoktur. Emre itaat mutlaktır. Çağdaşlıkta üste mutlak itaat mutlaktır.

Ve de onların kendilerini Yaradana karşı hiç bir kaygı ve saygısı söz konusu olamaz. İşte çağdaş hayatın aynası budur!

BU MODERİN BİR ÜLKEMİDİR?

- Moderin oluştta insanları zorlamak veya hayvan yerine kullanmak varmıdır?
- Moderin hayatta dayatmak veya zorla askerlik yaptırmak vaemıdır?
- Moderin hayatta kadınları ezmek varmıdır?
- Moderin hayatta kadınlara kaba işler yaptırmak varmıdır?
- Moderin hayatta kadınları azgın erkeklerin hizmetine vermek varmıdır?
