

### ADDITION NEARER AT CHESTER - CROZER

The George M. Ewing Company, architects planners and engineers of Philadelphia, announces that plans have been put out for bids for the Northwest Wing and addition to the Boller House of the Crozer-Chester Medical Center, located at 15th street and Upland avenue, Chester.

The \$5,250,000 five-story wing will provide 110,000 additional square feet of patient care and treatment area for this important Delaware County medical facility.

The architect, George M. Ewing, Columbia avenue, states that the plan embodies the most modern medical concepts. On the ground floor will be new clinic and emergency areas, as well as an extensive x-ray center, including deep therapy, isotope and radiograph and fluoroscope areas.

The first, second and third floors will house additional patient rooms and the pediatrics and the maternity departments. An innovation for the Crozer-Chester Medical Center is the cardiac care section which will occupy a portion of the fourth floor of the new Northwest wing.
