

THE INDUSTRY'S FINEST SELECTION OF RED DOTS.

For fast target acquisition and accuracy in dim conditions, there's nothing like a red dot, and no one makes them like Bushnell.® Our new Zoom Dot™ gives you the ability to tune the size of your aiming point down to one MOA for precision shooting and all the way up to 10 MOA for close quarters. We even make a model that conserves battery power with an auto shutoff based on position of your gun. Fact is, with red dot for every application from plinking to hunting to tactical, Bushnell is the only name you need to know for illuminated 1x sighting solutions.

NEW Zoom Dot™

A rugged, recoil-tested fully waterproof design currently serving in Iraq and Afghanistan. 1 to 10 MOA dot size adjustability. 30mm tube with ring mount included. Compatible with Weaver-style and Picatinny rails.
