SCOUT® 1000 ARC

Scout 1000 ARC

201932 (black)
Range: 5-1000 yards
Power/Obj: 5x 24mm

OTHER BRANDS ARE AN OPTION.
SO IS FILLING YOUR TAG.

Scout 1000 ARC

201942 (camo)
Range: 5-1000 yards
Power/Obj: 5x 24mm

A single button does the math. Just squeeze the trigger and remember your knife. Amazingly compact and simple to use, the Scout 1000 ARC figures distance based on terrain angle to give you an accurate “shoots-like” distance to 1,000 yards. Rifle Mode even tells you where to hold. With selectable Bow and Rifle Modes, it has the same capability some competitors need to split into two separate units. All with the tap of a button – in a vertical unit small enough to fit in your shirt pocket. In capability and ease of use, no one comes close to Bushnell.®

FEATURES: Built-in inclinometer provides ARC | Pocket-size ergonomic design | 5x magnification | Bow Mode – provides true horizontal distance from 5–99 yards | Rifle Mode – provides bullet-drop/holdover in inches | Bullseye, Brush and Scan mode | RainGuard® HD | Range: 5–1,000 yards | Diopter adjustment | Carrying case, battery and neck strap included | Compatible with magnetic attachment system

Angle Range Compensation (ARC). Extreme up- and downhill angles alter true horizontal distance to your target. ARC accounts for the terrain angle when calculating distance, so you know precisely how to shoot the range. No guesswork. Just backstraps.
