

The Phoenix III Patio Heater

Dynamic Cooking Systems, Inc.

PERFECT HEAT.

The Phoenix III Patio Heater

The Phoenix III Patio Heater by Dynamic Cooking Systems is intended to convert cold, unusable areas into warm and comfortable places for any activity. The Phoenix enhances the warmth of any spa or heated pool during evening swims. For restaurants it is the most cost efficient way to expand seating capacity when the weather turns cool. The Phoenix includes a door for easy access to the propane tank and is equipped on wheels for mobility. Complementing finishes of today's high-end patio furniture, the Phoenix is available in several textured finishes. This durable heater is also backed by a one-year warranty. Who said that the summers can't be endless?

Features

- Efficient 40,000 BTU burner system with 100% safety shut-off, piezo electric ignition and adjustable heat control knob.
