Remote Control Technology Designed for Total Comfort

# Ambient Technologies®

**Ambient Technologies, offers a broad line of remote controls and accessories designed for total comfort.**

*Ergonomic design, ease of operation and soft-touch finish combine to enhance the comfort, luxury and convenience of every gas fireplace.*

**To ensure product reliability, each remote features a radio frequency operating system.**

*Radio frequency allows for multiple security codes----which virtually eliminates interference from other home appliances such as televisions, DVD's and stereos----and each remote will operate at a maximum distance of 30 feet with no interference from objects between the user and the receiver.*

**Innovative technology, advanced engineering and a 20-step quality control program produce the finest remote controls available in the industry.**

*Our remotes and accessories have been engineered for compatibility with ALL brands of gas fireplaces, logs, inserts and stoves in today's market, and are fully warranted for 5 years.*

**Our pledge for comfort extends beyond the showroom.**

*Top-notch technical support is automatically included as part of the package. Our toll-free number is staffed by knowledgeable technicians, ready to assist before, during and after installation so that customers can be totally comfortable with choosing*

**Ambient Technologies.**

## DC Table Top/Wall Mount Remote Controls for Millivolt or 24V Systems

### TLT

- Thermostat "Touch" ON/OFF remote control
- LCD display with backlighting, temperature, "flame on" indicator, on/off sound indicator and "battery low" indicator
- Childproof protection
- Thermal-safety shutdown (transmitter)
- Wall mount bracket
- 16 security codes
- Battery receiver

touch · light®

### TLM

- Manual "Touch" ON/OFF remote control
- LCD display with backlighting, temperature, "flame on" indicator, on/off sound indicator and "battery low" indicator
- Childproof protection
- Thermal-safety shutdown (transmitter)
- Wall mount bracket
- 16 security codes
- Battery receiver

## TOTAL SYSTEM CONTROL

### RCSITE (For SIT 820 valves)

- Standard thermostat ON/OFF remote control
- 3-step flame height adjustment for SIT valve
- 3-speed blower control with adjustable automatic ON/OFF delay
- LCD display with backlighting, temperature, "flame on" indicator and "batter low" indicator
- Childproof protection
- Soft-touch finish
- Thermal-safety shutdown (transmitter)
- 16 security codes
- 110V receiver
- 6 hr. optional safety shutdown (receiver)

## DC Remote Controls for Millivolt or 24V Systems

Available in white and black.

### RCT

- 7-day (5/2) programmable thermostat ON/OFF remote control
- LCD display with backlighting, temperature, time, "flame on" indicator and "battery low" indicator
- Countdown timer
- Childproof protection
- Soft-touch finish
- Thermal-safety shutdown (transmitter)
- Wall mount bracket
- 16 security codes
- Battery receiver with easy battery access
- 6 hr. optional safety shutdown (receiver)

### RCST

- Standard thermostat ON/OFF remote control
- LCD display with backlighting, temperature, time, "flame on" indicator and "battery low" indicator
- Childproof protection
- Thermal-safety shutdown (transmitter)
- 16 security codes
- Battery receiver with easy battery access
- 6 hr. optional safety shutdown (receiver)

## DC Remote Controls for Maxitrol® and Concentric Varitap/Latchtap Flame Height Control Valve Systems

### RCTHL (Maxitrol System)

- 7-day (5/2) programmable thermostat ON/OFF remote control with flame height control
- LCD display with backlighting, temperature, time, "flame on" indicator and "battery low" indicator
- Countdown timer
- Childproof protection
- Soft-touch finish
- Thermal-safety shutdown (transmitter)
- Wall mount bracket
- 4 million security codes
- Battery receiver

Maxitrol® is a registered trademark of Mertik Maxitrol.

### RCMHL (Maxitrol)

- Deluxe ON/OFF remote control
- LCD display with backlighting, temperature, time, "flame on" indicator and "battery low" indicator
- Childproof protection
- Soft-touch finish
- Thermal-safety shutdown (transmitter)
- 4 million security codes
- Battery receiver

## AC Remote Controls for Millivolt or 24V Systems

### RCSTEB

- Standard thermostat ON/OFF remote control
- 3-speed blower control with adjustable automatic ON/OFF delay
- LCD display with backlighting, temperature, time, "flame on" indicator and "battery low" indicator
- Childproof protection
- Soft-touch finish
- Thermal-safety shutdown (transmitter)
- 16 security codes
- 110V receiver
- 6 hr. optional safety shutdown (receiver)

### RCTE

- 7-day (5/2) programmable thermostat ON/OFF remote control
- LCD display with backlighting, temperature, time, "flame on" indicator and "battery low" indicator
- Countdown timer
- Childproof protection
- Soft-touch finish
- Thermal-safety shutdown (transmitter)
- Wall mount bracket
- 16 security codes
- 110V receiver
- 6 hr. optional safety shutdown (receiver)

## RCMT

- Deluxe ON/OFF remote control
- 90 min. countdown timer
- LCD display with backlighting, temperature, time, "flame on" indicator and "battery low" indicator
- Childproof protection
- Soft-touch finish
- Thermal-safety shutdown (transmitter)
- 16 security codes
- Battery receiver with easy battery access
- 6 hr. optional safety shutdown (receiver)

## RCB

- ON/OFF remote control
- Signal indicator
- "Battery low" indicator
- 16 security codes
- Battery receiver with easy battery access
- 6 hr. optional safety shutdown (receiver)

## RCBHC (Maxitrol and Concentric Varitap/Latchtap Systems)

- ON/OFF remote control with flame height control
- Signal indicator
- 16 security codes
- Battery low indicator
- Battery receiver with easy battery access
- 6 hr. optional safety shutdown (receiver)

## RCTE

- 7-day (5/2) programmable thermostat ON/OFF remote control
- LCD display with backlighting, temperature, time, "flame on" indicator and "battery low" indicator
- Countdown timer
- Childproof protection
- Soft-touch finish
- Thermal-safety shutdown (transmitter)
- Wall mount bracket
- 16 security codes
- 110V receiver
- 6 hr. optional safety shutdown (receiver)

## RCBE

- ON/OFF remote control
- Signal indicator
- "Battery low" indicator
- 16 security codes
- 110V receiver
- 6 hr. optional safety shutdown (receiver)

## Wall Mounted Remotes for Millivolt or 24V Systems

### WWTD (DC Receiver)

- 7-day (5/2) programmable ON/OFF wall thermostat
- LCD display with backlighting, temperature, time, "flame on" indicator and "battery low" indicator
- Countdown timer
- Childproof protection
- Thermal-safety shutdown (transmitter)
- 128 security codes
- Battery receiver

### WWTA (AC Receiver)

- 7-day (5/2) programmable ON/OFF wall thermostat
- LCD display with backlighting, temperature, time, "flame on" indicator and "battery low" indicator
- Countdown timer
- Childproof protection
- Thermal-safety shutdown (transmitter)
- 16 security codes
- 110V receiver
- 6 hr. optional safety shutdown (receiver)

## Wall Switch or Timer Remote for Millivolt or 24V Systems

### WMTD

- ON/OFF wall switch/timer remote control
- LCD display with backlighting, temperature, time, "flame on" indicator and "battery low" indicator
- Flush Mount (no electric box needed)
- Countdown timer (set-up for resort and rental applications) 30/60/90 or 60/120/180
- Childproof protection
- Thermal-safety shutdown (transmitter)
- 16 security codes
- Battery Receiver

## Wired Controls for Millivolt or 24V Systems

### WT

- Wall Mounted Digital Thermostat with 25' of wire and spade connectors
- LCD display with backlighting, temperature, time, "flame on" indicator and "battery low" indicator
- Flush Mount
- Temperature setting range from 40° to 99°

### MVWS

- Wall Switch with 15' of wire
- Mounts in wall box

### ELSK

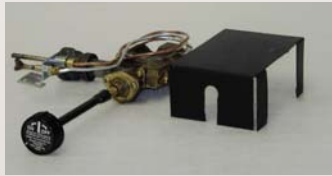

- Refractory log with On/Off switch and 12" of wire

## Vented Log Valve Kits

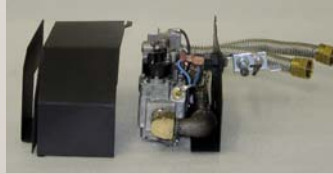

### MMVK – Manual Valve Kit

- Valve
- Handle and handle extension

### SPK-NG and SPK-LP Safety Pilot Kit

- Available in Natural or LP Gas
- For use with vented logs
- Pilot assembly and screws
- Handle extension
- 3/8" pipe fittings
- Heat shield
- Vermiculite (with LP Kits)

### MVVK – Millivolt Valve Kit

- Available in natural or LP gas
- For use with vented logs
- Millivolt valve
- Pilot assembly and screws
- ON/OFF switch
- Flex connectors
- Heat shield
- Vermiculite (with LP Kits)

### MXVK – Maxitrol Hi/Lo Valve Kit

- Available in natural or LP gas
- For use with vented logs
- Maxitrol valve
- Pilot assembly and screws
- Flex connectors
- Heat shield
- Vermiculite (with LP Kits)

### Concentric Varitap Hi/Lo Valve Kit

- Available in Natural or LP Gas
- For use with vented logs
- Pilot assembly and screws
- Handle extension
- 3/8" pipe fittings
- Heat shield
- Vermiculite (with LP Kits)

## Combination Kits

### WVHNCR/WVHPCR

Maxitrol HI/LO valve kit with VWFHLC (valve cover) & RCMHL remote control. Available in NG or LP.

## Receiver Covers

Fiber Ceramic Log Remote Receiver Cover-RRCL

Fiber Ceramic Ember Remote Receiver Cover-RRCE

Metal Remote Receiver Cover-RRCM

## Decorative Valve Covers

Fiber Ceramic Millivolt Valve Cover-VWFMVC

Fiber Ceramic Hi/Lo Valve Cover-VWFHLC

Fiber Ceramic Pilot Safety or Manual Valve Cover-VWFMVC

## Additional Accessories

- Flex connectors – Dormont stainless steel 3/8" NPT Male connector "x" combo 3/8" NPT Female and 1/2" NPT Male connector
- Available in 12", 18", 24", 30" and 36" sizes
- 36" Wire Kits - Available for all remotes
- 25' Wire Kit - Available for millivolt remotes
