

FIREPLACE
THIS IS WAGON UNIT. IT GETS A FAKE ELECTRIC
FIRE INSIDE THE OPENING. THE SAME
PORTABLE POWER PACK THAT POWERS THE
GRAVESTONE IS USED HERE. SOME
ARRANGEMENT OF LOGS AND LIGHTS WILL DO
FINE.

THIS WAS BUILT USING FRAMED LUAN PIECES
PREVIOUSLY. IT COULD EASILY BE DONE WITH
BLUE FOAM COVERED WITH MUSLIN AND
PAINTED, OR SOME OTHER COATING, LIKE
SCULPTCOAT OR FOAMCOAT.

MY IDEAL WOULD BE FOR IT TO BE ALL FOAM,
AND HELD TOGETHER WITH VELCRO,
LIGHTWEIGHT AND QUICK TO ASSEMBLE ON THE
WAGON.
