

MobileMe

Would you like to use your Hover hosted email services within your MobileMe account? No problem! Follow this lesson and you can be sending and receiving Hover email from your MobileMe account in no time!

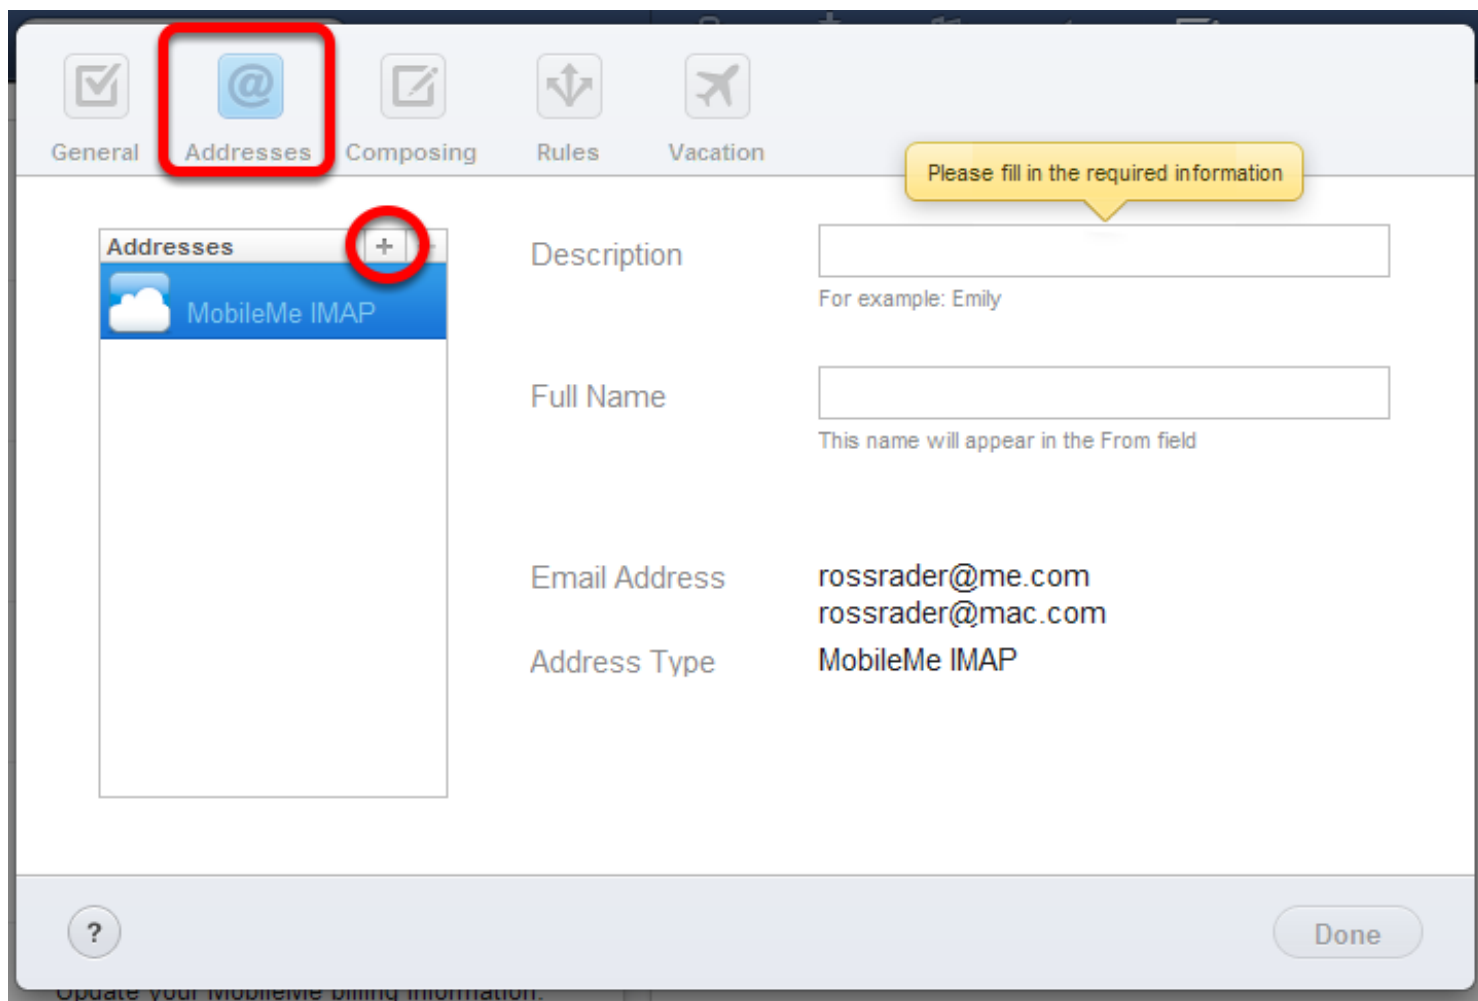

Visit <http://me.com> and sign in with your member name and password.

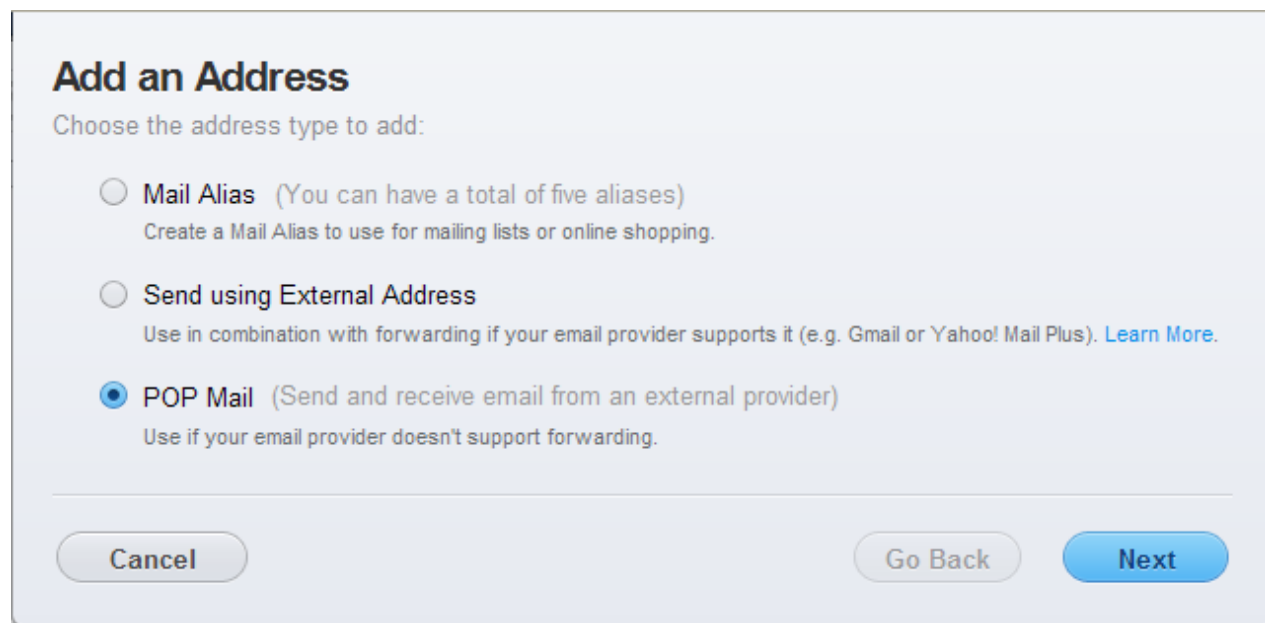

From your MobileMe webmail, click on the Actions button and select **Preferences**.

Download Hover Email into MobileMe Address

Select the **Addresses** tab then click on the plus sign to add a new email address.

Select the **POP Mail** option and then click **Next**.

Account Details

Fill out the following information to set up your POP account:

Email Address

For example: emily@parkerfamily.com

Full Name

This name will appear in the From field

Label Color

Description

For example: Family

Cancel

Go Back

Next

Enter the following settings under **Account Details**:

Email Address: Enter your Hover email address.

Full Name: Enter your name as you wish it to appear on outgoing messages.

Description: Hover Email, or any descriptive title of your choosing.

Click **Next**.

Incoming Settings

Enter information for the Incoming mail server:

Mail Server

For example: pop.example.com

Username

Password

Leave messages on server

Cancel

Go Back

Next

Enter the following incoming server settings:

Mail Server: mail.hover.com

Username: Enter your Hover email address.

Password: Enter your Hover email password.

Put a check next to "Leave messages on server" if you want to retain back up copies of your Hover email messages on our email server, or if you need to download your Hover email to more than one account or email program.

Click **Next**.

Outgoing Settings

Enter information for the outgoing mail server:

SMTP Server

For example: smtp.example.com

Port

Username

Password

Cancel

Go Back

Next

Enter the following outgoing server settings:

SMTP Server: mail.hover.com

Port: Select port 465.

Username: Enter your Hover email address.

Password: Enter your Hover email password.

Click **Next**.

POP Account Created

Important Note:

- Messages received prior to adding this address will not be retrieved.
- It may take up to 15 minutes for these settings to take effect.

Done

Click **Done**.

Done

You will see your Hover email account added to your list of addresses. Click **Done**.

The screenshot shows a mobile email interface. On the left is a 'Mailboxes' sidebar with options like Inbox, Drafts, Sent, Trash, Junk, and Notes. The main area displays a list of emails. The top email is from 'Mr. Creosote' with the subject 'Lawn Maintenance Appointment'. The recipient address 'To: me@rossrader.com' is highlighted with a red box. Below the list, the content of the selected email is shown, including a greeting 'Dear Mr. Rader,' and a message about delaying a lawn maintenance appointment until January 3, 2011.

New email messages sent to your Hover email address will now appear in your MobileMe Inbox, as you can see from the example above.

Send Using Your Hover Email Address

The screenshot shows a 'New Message' composition screen. The 'To' field is filled with 'Mr. Creosote' <mrcresote@awesomelawncare.com>. The 'Subject' is 'Re: Lawn Maintenance Appointment'. The 'From' field is highlighted with a red box and contains 'Ross Rader <me@rossrader.com>'. Below the fields is a rich text editor with various formatting options like bold, italic, underline, and bulleted lists. The body of the message contains the text: 'No problem, so long as you don't mind the dog. On Jul 14, 2010, at 11:12 AM, "Mr. Creosote" <mrcresote@awesomelawncare.com> wrote: Dear Mr. Rader, I'm terribly sorry, but we will need to delay your lawn maintenance appointment until January 3, 2011. Please expect us sometime between 3 am and 10 pm. P.S. - Please remove all pink flamingos before we arrive. They dull our mower blades.'

When composing a new email message, click on the **From:** list to select your Hover email address as the sender.

You are now configured to send and receive your Hover email within your MobileMe webmail account!
