

Yahoo!

Would you like to send and receive email using a personalized email address such as bevis@barber.net instead of a branded webmail account like bevis.barber@yahoo.com? This lesson will show you how to add your Hover email address to Yahoo! so you can use it as the from address when sending outgoing mail.

Before you complete the steps in this lesson, you will need to configure your Hover Email account to forward messages to your Yahoo! email address. If you haven't done this already, [click here for step-by-step instructions](#).

Visit <http://mail.yahoo.com> and sign in with your Yahoo! ID and password.

Click on **Options** and select **More Options**.

Select the **Accounts** option on the left, then click on the **Add Account** button.

The screenshot shows the 'Accounts' management interface in Yahoo! Mail. At the top, there are buttons for 'Save Changes' (highlighted with a red box), 'Add Account', and 'Remove Account'. A notification 'Added account' is visible in the top right. The main area is titled 'Accounts' and lists two accounts: 'Yahoo! Mail' and 'Hover Email'. The 'Hover Email' account is selected, and its settings are displayed on the right. The settings include: 'Account name' set to 'Hover Email' with a checkbox for 'Set as default sending account'; 'Your 'From' name' set to 'Bevis Barber'; and 'Email address' set to 'bevis@barber.net' with a 'Change reply-to address' link.

Enter the following settings:

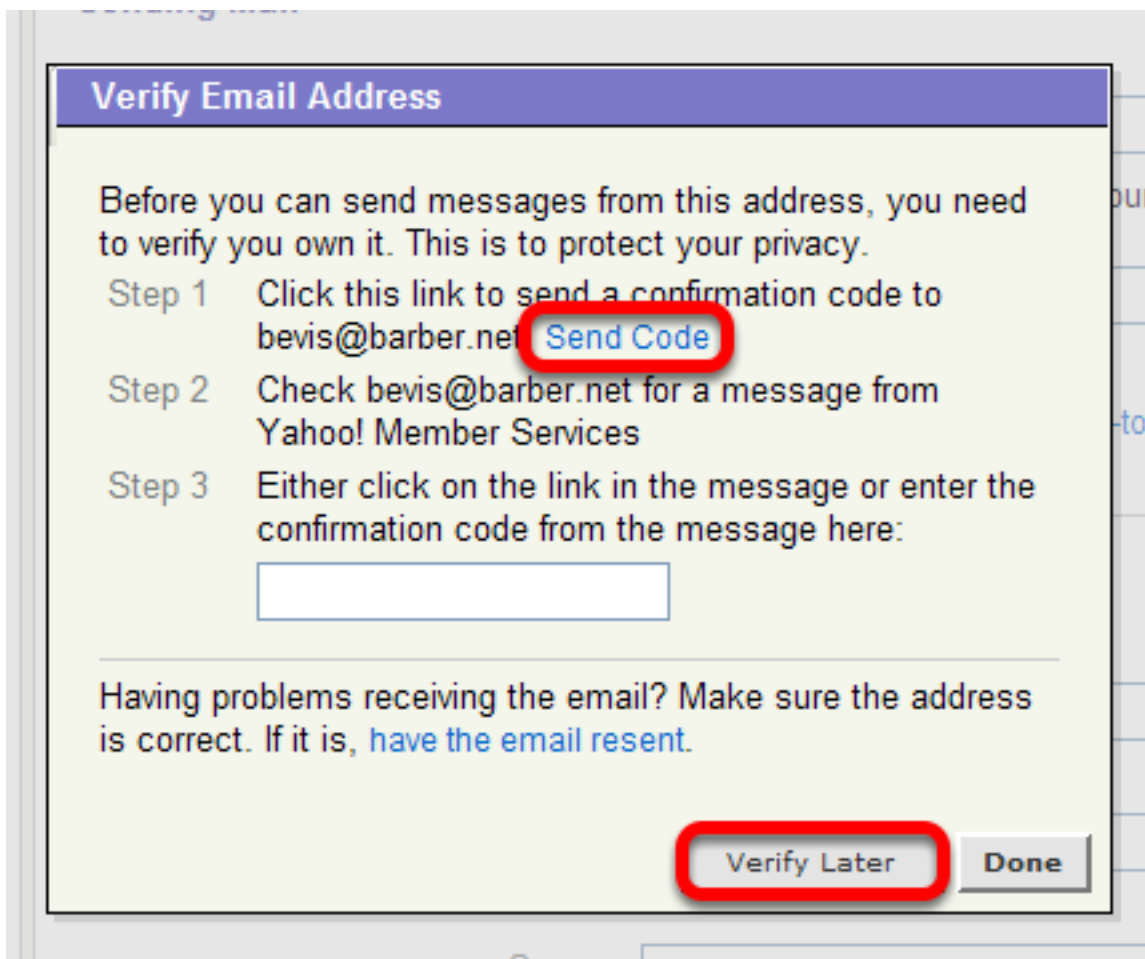

Account name: Enter any name for your Hover email account, such as Hover Email.

Your 'From' name: Enter your name as you wish it to appear on your outgoing mail messages.

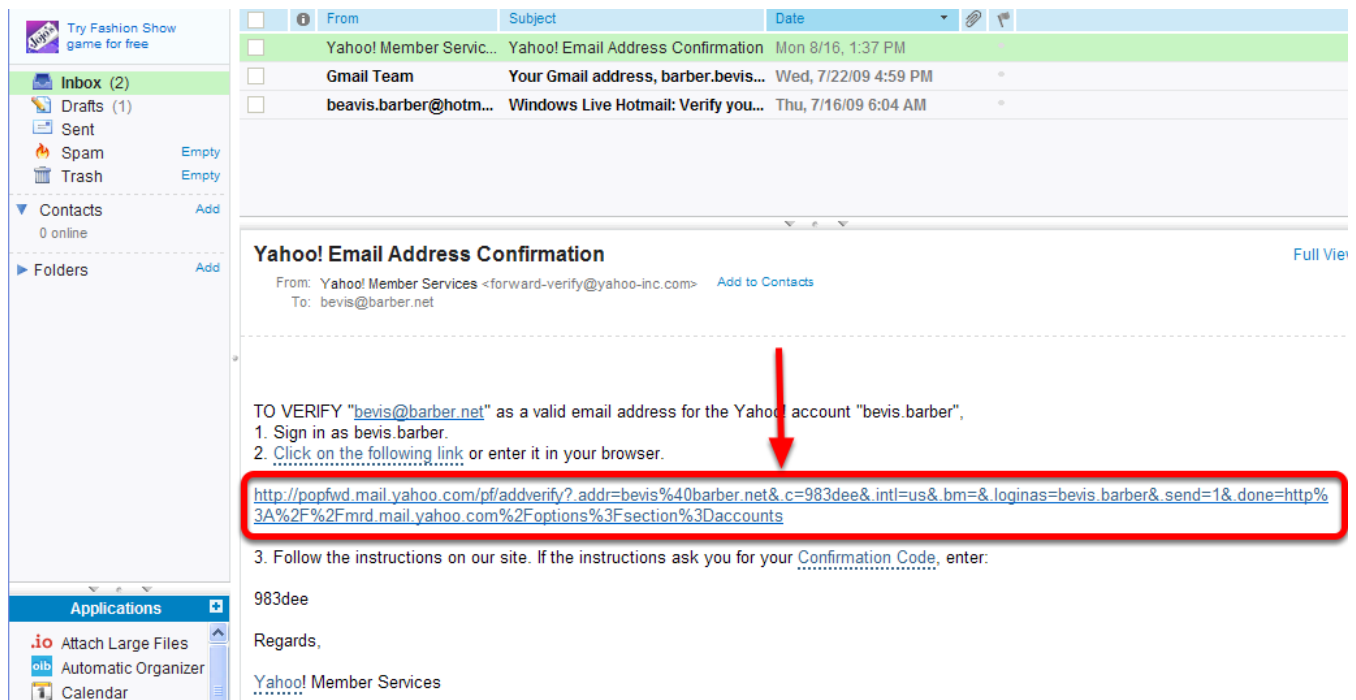

Email address: bevis@barber.net

You can put a check next to "Set as default sending account" if you want to use your Hover email address as the default account for all outgoing messages.

Click **Save Changes**.

Click on the **Send Code** link, then click on **Verify Later** and go into your Yahoo Inbox.

You will receive an email from Yahoo! Member Services with an email address confirmation link. Click on the link to verify your Hover email address.

Dear Mr. Creosote,

I would like to schedule an appointment to plant more wild flowers in my backyard, at your earliest convenience. I do love to press them!

Sincerely,

Bevis Barber

Now you can send email in Yahoo! using your Hover email address. Simply select your Hover email address from the From list when you are composing a new email. Your recipients will never know the difference!
