

## Wellness Committee Meeting

02/25/2020

Call to order, Tammie Works

Roll call – 6 members present. It was mentioned there was an issue with emails being returned “unable to send” to several of the student members. This was addressed with the school technology department.

Old business – none

New business –

\*Menu Review – CND, Tammie Works, handed out menus for the members to review. No suggestion or changes were recommended.

\*SHI – Members discussed the best way to have the SHI’s completed. It was decided that the Leadership Team at each campus would complete the SHI and submit their results to committee for review. The committee would then make recommendations to the superintendent and school board as needed. This would allow the committee to refocus its efforts on ways to improve the overall health and wellness of the district.

\*Tammie Works, co-chair, distributed CN Memos, and power points to review the responsibilities of the committee.

\*Tammie Works, went over the Triennial Assessment with the committee. She used the check off list as a guide to explain what was left to review to ensure that it was completed and in place by the end of the school year. The last review was in June of 2017

\*Ways to notify the public was discussed. The committee will work with Kenneth Askew, the district technology coordinator, to set up a new tab on the schools website specifically for wellness. This would be a direct link to minutes, agenda, etc. Askew will also place all scheduled meetings on the district calendar accessible through the district home page. The co-chairs of the committee will ensure that announcements are also made on the schools social media pages.

\*Future meetings – Meetings were scheduled for March 31, 2020, April 28, 2020 and May 19, 2020. A final report to the public will be given at the annual report to the public school board meeting decided by the superintendent.

There was good discussion on various topics that are of a concern within the district – Professional Development for all staff on areas of Wellness, School based medical clinic, hosting a health fair, etc. These will be discussed more than the March meeting.

The meeting was adjourned.
