BROCK, TEXAS 76087  
(817) 594-7642 \* FAX (817) 599-3246

*“Great Traditions...Great Expectations”*

## Inclement Weather Procedures

The safety and security of the Brock ISD students and staff is the district’s No. 1 priority, and we will always respond first to the immediate emergency. After ensuring the safety of our students, our next priority will be communicating with parents and guardians.

### **Severe Weather Procedures**

Brock ISD officials and campuses regularly monitor storms in the area, the National Weather Service, and local TV and radio stations for any potential alerts or risks. Brock ISD officials receive regular updates and alerts from the Parker and Tarrant County Office of Emergency Management (OEM), and the National Weather Service.

In the event severe weather is approaching during the school day, the district will account for students and staff safety and then communicate updates to parents. The district requests parents to not come to school buildings in the middle of a storm to pick up their children. Please allow school officials to effectively respond during a weather emergency and follow Brock ISD’s communication outlets for updates and announcements (Facebook, Twitter, and e-notes communication).

### **Inclement Weather Procedures**

Brock ISD monitors the National Weather Service and local meteorologist forecasts before making decisions to close or delay school. Officials attempt to provide details about school closings to staff, students and parents before 5:30 a.m.

Factors considered before making a weather-related decision about school include:

- road conditions, temperatures
- the presence of snow, ice and sleet
- teen driver safety
- sidewalk and parking lot conditions; and
- the ability for staff who live outside the district to get to work
- whether or not HVAC systems are operating correctly; and
- whether or not neighboring school districts are having school.

### **Notifications:**

Brock ISD will send alerts and updates via multiple communications tools. The district will post to Facebook, Twitter, the district's website and send communication via e-notes to keep parents, students and staff informed of weather-related alerts.

**Social Media Reminder:** False reports of school closings, accidents or injuries by students will not be tolerated, nor will inappropriate language or references that violate the Student Code of Conduct.

**Radio & Television Announcements:** Official announcements during inclement weather will be announced on DFW radio and television stations, including WBAP News Talk 820 AM, KRLD 1080-AM and on NBC Ch. 5, Fox 4, KTVT Ch. 11 and WFAA Ch. 8.
