Whitewright High School Parent,

One of the most important responsibilities of a school and its administrators is the safety of our students. There was an incident of student talk brought to my attention today. I believe it is important to make you aware of this information. There were threatening comments made involving violence and guns and a plan to attack our school. Whether these comments were made in seriousness or jest is not the issue. We must take any comments of this type seriously.

There are very few times law enforcement is requested to visit our school. In a small community news travels quickly, and we wanted you to be aware that the issue of the threatening comments has been handled appropriately, with the help of law enforcement today.

If you have any questions regarding the safety of your student(s), please call me. Student confidentiality will remain a priority, but I can answer questions pertaining to your child.

Sincerely,

Kevin Weaver
