

AGILE MIND MATH ADOPTION

5 Year Adoption (5 years is usually the length of time between curriculum changes)

435 students – 5 Teachers with full access – 3 Teachers with partial access (SPED) - \$77,816

We would recommend purchasing at least for next year 1 workbook per student

We can print the sheets but it is usually cheaper to purchase the workbook than to make the copies.

6th -8th Student Workbooks \$14.95 each $192 \times 14.95 = 206.95$

Algebra, Geometry, Algebra II Workbooks \$18.95 each $210 \times 18.95 = \$3979.50$

The purchase of the \$77,816 can be spread out over the first year of purchase. We can encumber part of the purchase out of the 2014-2015 funds.

Estimated costs for specific items (manipulatives etc..) \$200 per teacher or approximately \$1000. This could actually be less as we can use items we have in district, even from elementary kits. I just want the Board to understand that manipulatives are not included. Some examples are: tracing paper, marbles, and model figures.

I am asking for 25 Chrome Books from my current building budget. Mr. Adams is asking for 50 Chrome Books and 2 charging carts from his current budget. The estimated cost for this is \$24,200.
